

ENVIRONMENTAL HEALTH: BRIDGING THE GAPS

James A. Listorti and Fadi M. Doumani

PART 1: HARMONIZING SECTORAL PRIORITIES: A NEW APPROACH TO
ENVIRONMENTAL HEALTH

PART 2: ENVIRONMENTAL HEALTH ASSESSMENT GUIDELINES

PART 3: PUTTING THEORY INTO PRACTICE: A CASE STUDY IN GHANA

Table of Contents

(The Table of Contents serves also as an Index)

Foreword	xv
Abstract	xvi
Acknowledgments	xvii
How to Use This Volume	xviii
<i>Part 1: Harmonizing Sectoral Priorities</i>	<i>xviii</i>
<i>Part 2: Environmental Health Assessment Guidelines</i>	<i>xviii</i>
<i>Part 3: Putting Theory into Practice</i>	<i>xix</i>
<i>Exclusions to this Volume</i>	<i>xix</i>
Acronym List	xxi
Executive Summary	xxiii
Part 1: Harmonizing Sectoral Priorities: A New Approach to Environmental Health	1
Chapter 1: Challenges of Environmental Health in Developing Countries	3
<i>Inadvertent Bias in Neglecting Environmental Health</i>	<i>3</i>
<i>How the Health Picture Differs in Developing Countries</i>	<i>5</i>
<i>The Changing Face of Disease and the Developing World</i>	<i>7</i>
Vector-Related Diseases.....	<i>7</i>
The Double Burden of Disease in Developing Countries.....	<i>8</i>
Global Change.....	<i>8</i>
<i>Multisectoral Approaches and the Challenges they Present</i>	<i>9</i>
<i>The Role of Knowledge Management</i>	<i>13</i>
Chapter 2: Developing Solutions through Targeted Collaboration	15
<i>Objectives of Harmonizing Sectoral Priorities</i>	<i>17</i>
<i>Methodologies of Targeted Multisectoral Collaboration</i>	<i>19</i>
Identifying and Prioritizing Measures Outside the Health Care System.....	<i>19</i>
Devising “Entry Points”.....	<i>20</i>
Establishing Mutual Benefits for Sustainability.....	<i>21</i>
<i>Identifying the Stakeholders</i>	<i>22</i>
<i>Establishing Mutual Benefits through Mapping</i>	<i>23</i>
<i>Quantifying Untapped or Missed Health Benefits</i>	<i>24</i>
<i>Improved Service Delivery</i>	<i>26</i>
<i>Estimating Beneficiaries</i>	<i>27</i>
Chapter 3: Socioeconomic Justification and Challenges	29
<i>Why Do Mainstream Environmental Health in Development Work?</i>	<i>30</i>
<i>Understanding Environmental Health Attributes</i>	<i>33</i>
<i>Harmonizing Environmental Health with Environment Policies, Law, Institutions, and Monitoring Systems</i>	<i>36</i>
Policy Failures.....	<i>37</i>
<i>Structural and Sectoral Adjustment Lending: Macroeconomic Matrix</i>	<i>38</i>
<i>Structural and Sectoral Adjustment Lending and Strategic Environmental Assessment: Action Impact Matrix</i>	<i>40</i>
<i>Public Expenditures Review</i>	<i>41</i>
<i>Country Assistance Strategy Environmental Analysis Matrix</i>	<i>42</i>
<i>Comprehensive Development Framework Matrix</i>	<i>43</i>
<i>Poverty Reduction Strategy, Environmental Health, and Poverty Linkages</i>	<i>44</i>

<i>Intermediation Mechanisms: Community-Driven Development</i>	44
Institutional Failures.....	45
<i>Legislative Framework</i>	45
<i>Institutional Framework</i>	46
Market Failures	47
Monitoring	48
<i>Quantifying and Valuing the Environmental Health Burden of Disease</i>	50
Hypothesis for Back-of-the-Envelope Calculations	50
<i>Hypothesis for Quantification</i>	51
<i>Hypothesis for Valuation</i>	52
Quantifying the Environmental Health Burden of Disease.....	53
Valuation of Environmental Health Burden of Disease.....	57
<i>Prioritizing a Cluster of Environmental Health Interventions and Policy Responses</i>	64
Prioritization	64
Policy Response and Implications.....	65
<i>Concluding Remarks</i>	66
Chapter 4: Gathering and Analyzing Information for Environmental Health	67
<i>An Overview of EHAs</i>	67
<i>EHAs and Alternatives</i>	69
Environmental Health Profiles	69
Adapting an Existing Environmental Assessment as an EHA	70
Adapting an Existing Health Assessment as an EHA	70
Adapting an Existing Social Assessment as an EHA	72
Adapting an Existing Poverty Assessment as an EHA	72
Conducting a Complete EHA	73
Chapter 5: Preparing an “Environmental Health Profile”	75
<i>Preparing Sectoral Profiles</i>	78
Poverty Profile	79
Agriculture and Rural Development Profile	79
Energy Profile	80
Environment Profile	80
Health Profile	81
Industry Profile	83
Infrastructure Profile	83
Demographic Profile	84
Institutional Profile	84
Development Assistance Profile	84
<i>Analyzing the Data</i>	85
Chapter 6: Adapting Environmental Assessments or Preparing Environmental Health Assessments	89
<i>Adapting Existing Environmental Assessments to Serve as EHAs</i>	89
<i>Conducting a Complete EHA</i>	96
Environmental Health Analyses	97
<i>Broad Picture and Overall Context</i>	97
<i>Definition of Key, Confusing, and Misused Terms</i>	99
<i>Individual Sector Factors and Issues</i>	99
<i>Typical Loans from the Sector</i>	99
Environmental Health Assessment Outline	100
<i>The Proposed Project</i>	100
<i>Institutional Strengths and Weaknesses</i>	100
<i>Occupational, High Risk, and Vulnerable Groups</i>	100
<i>Hot Spots, Special Cases, and Key Pollutants</i>	101
<i>Inadvertant Professional Biases</i>	101
<i>On the Horizon</i>	102
<i>Research and Information Gaps</i>	102

Recommendations.....	102
Part 2: Environmental Health Assessment Guidelines	103
Chapter 7: Environmental Health Background Analyses	105
<i>Leading Health Problems</i>	<i>105</i>
Malnutrition	106
Respiratory Diseases, Tuberculosis, and Diseases Related to Air Pollution	107
<i>About Air Pollutants.....</i>	<i>108</i>
Gastroenteric Diseases	110
<i>Diarrheas.....</i>	<i>110</i>
<i>Intestinal Parasites.....</i>	<i>112</i>
Malaria and Vector-Related Diseases	112
<i>About Mosquitoes.....</i>	<i>113</i>
<i>Vector Control.....</i>	<i>115</i>
Injuries and Accidents	119
Physical and Mental Stress.....	120
<i>Diseases for Special Consideration</i>	<i>120</i>
AIDS	120
Epidemic Cholera	121
Guinea Worm Infection	121
<i>Key Cross-Cutting Issues.....</i>	<i>122</i>
Pesticide Use.....	122
Biological Diversity and Traditional Medicines	126
Chapter 8: Cross-Sectoral Linkages: Agriculture and Rural Development Sector.....	129
<i>Key Environmental Health Issues.....</i>	<i>129</i>
<i>Human Settlements.....</i>	<i>130</i>
Housing.....	131
Energy Use and Generation	132
<i>Traditional Fuels.....</i>	<i>132</i>
<i>Modern Fuels.....</i>	<i>133</i>
<i>Power Generation.....</i>	<i>133</i>
Periurban Agriculture and Livestock.....	134
<i>Land Use and Natural Resource Management.....</i>	<i>134</i>
Food Production, Processing, Storage, and Transport.....	134
<i>Crops, Food Security, and Nutrition.....</i>	<i>134</i>
<i>Use of Pesticides and Fertilizers.....</i>	<i>136</i>
<i>Livestock and Animal Husbandry.....</i>	<i>138</i>
<i>Fisheries and Aquaculture.....</i>	<i>140</i>
<i>Food Processing, Storage, and Transport.....</i>	<i>140</i>
Land Clearing for Agriculture or Settlement	142
Forestry, Biodiversity, and Traditional Medicines	143
<i>Water and Waste Management.....</i>	<i>145</i>
Rural Community Drinking Water Supply	145
Irrigation and Drainage.....	147
<i>Potential Impacts from Increased Agriculture.....</i>	<i>147</i>
<i>Potential General Ecological Disturbances.....</i>	<i>148</i>
<i>Marshes and Other Wetlands.....</i>	<i>149</i>
<i>Reuse of Wastewater.....</i>	<i>149</i>
Agricultural Waste Management	149
Domestic Waste Management.....	149
<i>Wastewater</i>	<i>149</i>
<i>Periurban Waste.....</i>	<i>150</i>
<i>Rural Transportation.....</i>	<i>150</i>
Roads, Trails, and Paths.....	150
River Transport	151
<i>Environmental Health Assessment Checklist.....</i>	<i>151</i>

Typical Loans and Components from the Sector.....	151
Occupational, High Risk, and Vulnerable Groups.....	151
Environmental Health Checklist for the Sector.....	152
Chapter 9: Cross-Sectoral Linkages with the Energy Sector.....	157
<i>Key Environmental Health Issues</i>	157
<i>Findings of a Literature Review</i>	157
<i>Environmental Health Assessment Checklist</i>	160
Occupational, High Risk, and Vulnerable Group.....	160
Environmental Health Checklist for the Sector.....	161
Chapter 10: Cross Sectoral Linkages: Environment Sector.....	163
<i>Key Environmental Health Issues</i>	163
<i>Findings of a Literature Review</i>	163
<i>Environmental Health Assessment Checklist</i>	164
Chapter 11: Cross-Sectoral Linkages: Health Sector.....	167
<i>Key Environmental Health Issues</i>	167
<i>Findings of a Literature Review</i>	167
<i>Environmental Health Assessment Checklist</i>	169
Chapter 12: Cross-Sectoral Linkages: Industry Sector.....	171
<i>Key Environmental Health Issues</i>	171
<i>Findings of a Literature Review</i>	171
Industrial Pollution and Waste.....	171
Occupational Health.....	172
Research on the Role of Governments.....	172
A Note on the Role of the Private Sector.....	173
<i>Environmental Health Assessment Checklist</i>	174
Chapter 13: Cross-Sectoral Linkages: Infrastructure Sector.....	177
<i>Key Cross-Cutting Environmental Health Issues</i>	177
“Brown” Issues.....	177
Vector-Related Diseases.....	177
Food Chain Contamination.....	178
Special Note on AIDS.....	178
<i>Housing and Urban Development</i>	178
The Broad Picture.....	178
Key Environmental Health Issues.....	179
<i>Housing Quality and Ventilation</i>	179
<i>Energy Use</i>	180
<i>Land Degradation</i>	180
Environmental Health Assessment Checklist.....	181
<i>Typical Loans and Components from the Sector</i>	181
<i>Construction Activities and Mosquito Breeding</i>	181
<i>Housing: Dirt Floors and Intestinal Worms</i>	181
<i>Housing: Indoor Air Pollution</i>	182
<i>Proximity to Large-Scale or Hazardous Pollution</i>	182
<i>Tinkering, Cottage Industries, and Artisanal Markets</i>	183
<i>General Markets</i>	183
<i>Household-Related Injuries</i>	183
<i>Occupational, High Risk, and Vulnerable Groups</i>	184
<i>Telecommunications</i>	188
<i>Transportation</i>	189
Key Environmental Health Issues.....	189
Environmental Health Assessment Checklist.....	191

<i>Typical Loans and Components from the Sector</i>	191
<i>Injuries</i>	191
<i>Train, Bus, Rail, and Taxi Stations</i>	191
<i>Ports and Harbors</i>	192
<i>Dredging</i>	193
<i>Airports</i>	193
<i>Vehicle-Related Pollution Control</i>	193
<i>Construction and Vector-Related Diseases</i>	193
<i>Roads</i>	194
<i>Railways</i>	194
Water Supply and Sanitation	199
The Broad Picture and Key Environmental Health Issues.....	199
Key, Confusing, and Misused Terms.....	199
Environmental Health Assessment Checklist.....	200
<i>Typical Loans and Components from the Sector</i>	200
<i>Water Quality and Quantity</i>	201
<i>Sanitation and Drainage</i>	201
<i>Disposal and Treatment of Human Excreta</i>	202
<i>Solid Waste Management</i>	203
<i>Drainage</i>	207
<i>Water Supply</i>	208
<i>Industrial Wastewater</i>	210
<i>Accidents and Safety</i>	210
<i>High Risk and Vulnerable Groups</i>	210
Chapter 14: Global Issues	217
<i>Key Environmental Health Issues</i>	217
<i>“New” and Re -Emerging Diseases</i>	218
Food Production.....	219
Vector-Related Diseases.....	220
Part 3: Putting Theory into Practice: A Case Study in Ghana	223
Chapter 15: Ghana Sample Sectoral Profiles	225
<i>Environment Sector Profile</i>	225
Environmental Issues.....	225
Environmental Recommendations.....	227
<i>Health Sector Profile</i>	229
<i>Infrastructure Sector Profile</i>	230
Urban.....	230
Water Supply.....	231
Transport.....	231
Rural Infrastructure.....	232
<i>Energy Sector Profile</i>	234
<i>Industry Sector Profile</i>	234
<i>Demographic Profile</i>	235
<i>Development Assistance Profile</i>	237
<i>Institutional Profile</i>	238
<i>Poverty Reduction Profile</i>	242
<i>References</i>	244
World Bank Documents Cited.....	244
Additional Useful World Bank Documents on Ghana.....	244
Chapter 16: Sample Institutional Needs Assessment from Ghana	245
<i>Environmental Health Needs Assessment from Ghana</i>	245
Introduction and Objectives.....	245

Methods and Institutions Consulted.....	246
Geographic, Demographic, and Sanitary Background on SAEMA.....	247
Environmental Health Findings from the Need Assessment Survey.....	248
<i>Top Ten Diseases in SAEMA</i>	248
<i>Relationship between the Top Ten Diseases and Environmental Conditions</i>	249
<i>Perceptions of the Health Problems</i>	250
<i>Institutional Roles Regarding Entry Points</i>	251
<i>Nonhealth Departments</i>	252
<i>Civil Society</i>	254
<i>The Weak or Missing Link in the Management of Urban Malaria</i>	255
<i>Institutional Priorities and Objectives</i>	255
Reporting.....	256
Conclusions.....	261
<i>Terms of Reference for an Institutional Needs Assessment</i>	261
Outline of the Needs Assessment.....	261
Content of the Needs Assessment.....	262
<i>Public Health</i>	262
<i>Institutional and Legal Aspects, Financing Mechanism, Capacity, and Recommendations</i>	262
<i>Assignment</i>	263

Chapter 17: Sample Workshop on Targeted Collaboration in Ghana.....	265
<i>Background</i>	265
<i>USEP Mid-Term Review for the Five Cities Workshop</i>	266
Proposal 1: Urban Malaria and other Vector Borne Diseases, Sanitation and Drainage.....	267
Proposal 2: AIDS Outreach.....	268
Proposal 3: Management of Health Facility Waste.....	268
<i>Statement of the Problem</i>	268
<i>Points of Intervention</i>	269
<i>Solutions</i>	269
<i>Sekondi-Takoradi Workshop</i>	269
Background.....	269
<i>Objective and Participants</i>	269
Summary of Discussions on Entry Points and Proposed Solutions.....	270
<i>Management of Health Facility Waste</i>	270
<i>Points of Intervention</i>	270
<i>Solutions</i>	270
<i>Recommendations</i>	271
<i>Urban Malaria</i>	271
<i>Area Mapping and Assessment</i>	271
<i>Recommendations</i>	275
<i>Water, Sanitation, and Drainage</i>	275
<i>Water</i>	276
<i>Recommendations</i>	276
<i>Sanitation</i>	276
<i>Recommendations</i>	276
<i>Drainage</i>	276
<i>Recommendations</i>	276
<i>Cross-Cutting Issues</i>	277
Summary of Participants' Comments.....	277
Summary and Recommendations.....	278
<i>Sample Terms of Reference for the Sekondi-Takoradi Workshop</i>	280
Background and General Assignment.....	280
<i>Selection of City</i>	281
<i>Consultant Assignments</i>	281
<i>Consultations and Assessment</i>	281
Workshop Preparation Management and Report.....	281

Annexes	283
Annex A: Environmental Health Assessments: Rapid Checklists	285
Annex B: Basic Information on Important Diseases	313
<i>Individual Diseases</i>	313
Cholera.....	313
Dengue Fever.....	314
Diarrheas and Dysentery	315
<i>Diarrheas: Undifferentiated (Childhood and Traveler’s)</i>	315
<i>Diarrheas: Specific</i>	316
<i>Dysentery: Amebic</i>	317
<i>Dysentery: Shigellosis</i>	318
Filariasis	318
Food Poisoning.....	320
Giardiasis	320
Guinea Worm Disease.....	321
Hepatitis	322
Intestinal Worms (Ascaris and Hookworm).....	323
<i>Intestinal Worms: Ascariasis</i>	323
<i>Intestinal Worms: Hookworm</i>	324
Malaria	325
Onchocerciasis.....	326
Respiratory Diseases (Acute, Flu, and Pneumonia).....	327
<i>Respiratory Disease: Acute Respiratory Illnesses (Short-Term and Mild)</i>	327
<i>Respiratory Disease: Influenza</i>	327
<i>Respiratory Disease: Pneumonias</i>	328
Salmonellosis (Salmonella and Typhoid).....	329
<i>Salmonellosis: Salmonellosis (see also Dysentery)</i>	329
<i>Salmonellosis: Typhoid and Paratyphoid</i>	329
Schistosomiasis	330
Tetanus.....	332
Trachoma	332
Trypanosomiasis (African Sleeping Sickness and Chagas’ Disease).....	333
<i>Trypanosomiasis: African Sleeping Sickness</i>	333
<i>Trypanosomiasis: Chagas’ Disease (American)</i>	334
Tuberculosis.....	334

Boxes

Box 1-1: The Case of Lead	4
Box 1-2: Key Confusing and Misused Terms on Diseases and Statistics.....	5
Box 1-3: Urbanization in Sub-Saharan Africa	8
Box 1-4: The Health Situation in Sub-Saharan Africa	9
Box 1-5: A Near Miss in an Environmental Assessment.....	12
Box 1-6: The Contributions of an Environmental Health Approach.....	14
Box 2-1: Mainstreaming the New Approach into Bank Development Work	16
Box 2-2: Environmental Health Defined.....	17
Box 2-3: Key, Confusing, and Misused Terms on “Medicine” and “Health”	18
Box 3-1: Working Definition of Environmental Health	30
Box 3-2: Key, Confusing, and Misused Economic Terms on Environmental Health	32
Box 3-3: Example of Legislation Adapted for Environmental Health	46
Box 3-4: Key, Confusing, and Misused Terms on Goods and Services	46
Box 3-5: Measuring the Burden of Disease: The DALY Concept.....	51
Box 3-6: Partnerships to Manage Vector-Related Diseases in an Urban Setting	62
Box 4-1: Key, Confusing, and Misused Terms on Assessments and Plans.....	67
Box 4-2: Clarifying the Objectives of Assessments and Projects	68
Box 4-3: Sample Outline for a Health Impact Assessment.....	70
Box 4-4: Sample Sequence of the EHIA Process.....	72
Box 5-1: A Word of Caution	79
Box 5-2: A Note on Sub-Saharan Africa	81
Box 5-3: Truckers in SSA and AIDS	82
Box 5-4: “Drop-Dead” Data	82
Box 5-5: Employing an EHP in Ghana	86
Box 6-1: Core Outline for an Environmental Health Assessment.....	97
Box 7-1: Potential Risks Associated with Pesticide Use in Malaria Control in SSA	117
Box 7-2: Key, Confusing, and Misused Terms on Pesticides.....	122
Box 7-3: Health Aspects of World Bank Policy on Pest Management (OP 4.09).....	123
Box 8-1: Key, Confusing, and Misused Terms on Human Settlements	131
Box 8-2: Key, Confusing, and Misused Terms about Rural Energy	132
Box 8-3: Drought in Sub-Saharan Africa	135
Box 8-4: Key, Confusing, and Misused Terms on Agriculture	136
Box 8-5: Key, Confusing, and Misused Terms on Fertilizers	138
Box 8-6: Medicinal Plants and Ghana.....	143
Box 8-7: Two Successes in Eradicating Guinea Worm Disease and River Blindness.....	145
Box 8-8: The Stressful Facts about Rural Water Supply	146
Box 11-1: Key, Confusing, and Misused Terms on the Health Sector.....	167

Box 13-1: Key, Confusing, and Misused Terms on Human Settlements.....	179
Box 13-2: Key, Confusing, and Misused Terms on Air Pollution	191
Box 13-3: Key, Confusing, and Misused Terms on Sanitation	200
Box 13-4: Medical Waste Management in Ghana	206
Box 13-5: Urban Malaria: The Need for Data from Sectors besides Health.....	208
Box 14-1: Key, Confusing, and Misused Terms on Climate and Ozone Depletion.....	218
Box 16-1: Mr. Ampadu Adjei (Head of Physical Planning Department).....	251
Box 16-2: Market Women Association.....	251
Box 16-3: Dr. Lynda Vanatoo (Metro Director of Health Services)	252
Box 16-4: Robert Austin, Coordinator UESP	258
Box 16-5: Deputy Coordinating Director, SAEMA	258
