

World Bank - Civil Society Consultative Group on Health, Nutrition, and Population

April 14 and 15, 2015

World Bank Participants *DAY TWO*

Abdo Yazbeck

Lead Economist

Ayazbeck@worldbank.org

I am currently the acting Practice Manager for Health, Nutrition, and Population for East and Southern Africa. I also a lead health economist for the Africa region. The region I cover has had impressive successes but remains among the poorest in the world and continues to have high levels of maternal mortality, malnutrition, and high fertility. Prior to working on Africa I was the manager for health in Europe and Central Asia and the program leader for the health team for the Bank's training arm.

Andres Falconer

afalconer@worldbank.org

Head of Partnerships at the World Bank Secretariat for the Global Partnership for Social Accountability (GPSA). Prior to this, between 2007 and 2012, he was the Managing Director of Ashoka UK and Director of the Ashoka Support Network, based in London. Before this he was the Executive Director of LEAD Brazil, in Sao Paulo, Brazil. He co-founded and managed CEATS, the Center for Social Entrepreneurship of the University of São Paulo. He has lectured on civil society organizations and social entrepreneurship in a number of professional and academic institutions, including the INSEAD Programme on Social Entrepreneurship (Portugal), and the CEATS MBA Program on Third Sector Management (Brazil). Andres holds a Masters degree in Management and was a fellow of the Johns Hopkins Center for Civil Society Studies.

Akiko Maeda

Lead Health Specialist

Amaeda@worldbank.org

Akiko Maeda currently holds the position of Lead Health Specialist at the Health, Nutrition and Population Department of the World Bank, and is leading the World Bank's strategy on Human Resources for Health for Universal Health Coverage.

Akiko has over 20 years of experience in international health and social development programs, and has provided policy advice to senior Government officials in health policy reforms throughout the Middle East, Africa, Asia and Europe. Her areas of expertise include health insurance and health financing reforms, health services reorganization, and human resources for

health. Before joining the World Bank, Akiko held various positions with the Asian Development Bank, UNICEF and UNDP. She has a Ph.D. in Health Economics from Johns Hopkins School of Public Health; M.A. in Biochemistry & Molecular Biology from Harvard University; M.A. in Middle Eastern Studies also from Harvard University; and a B.A. degree in Biochemistry from Princeton University.

Christel Vermeersch

Senior Economist

cvermeersch@worldbank.org

Enis Baris

Practice Manager

ebaris@worldbank.org

Enis Barış is a medical doctor with graduate degrees in Public Health (M.Sc.) and Epidemiology (Ph.D.) and a wide range of experience as director, manager and technical expert in development and research in over 30 countries in Europe, East Asia, Middle East and North Africa, Sub Saharan Africa and Latin America. At present, Enis Barış is Sector Manager for Health, Nutrition and Population in the Middle East and North Africa Region of the World Bank, a position he came back to recently after having been Director of the Division of Country Health Systems at the European Regional Office of the World Health Organization. Since joining the Bank in 1999, Enis Barış has been engaged in leading policy dialogue and operations on health and human development in the regions of East Asia and Pacific, Europe and Central Asia and now Middle East and North Africa. His technical work at the Bank spans over public health issues such as HIV/AIDS, Tuberculosis, indoor air pollution and lung health, as well as broader health system development issues. At various stages of his career, Enis Barış has chaired, or served on, the Board of several international organizations, the International Union against Tuberculosis and Lung Diseases, Council of Health Research for Development and the Alliance for Health System and Policy Research. He is the editor and author of several books and peer-reviewed publications.

Michele Gragnolati

mgragnolati@worldbank.org

Michele Gragnolati is the Global Lead for Population and Development at the World Bank. Before that he was for Program Leader for HNP, Education, Social Protection and Labor, Poverty and Gender for Argentina, Uruguay and Paraguay, based in Buenos Aires. He also held the positions of Human Development Sector Leader for Brazil, based in Brasilia and for the Western Balkans, based in Sarajevo. Michele also worked on health, poverty and social protection activities in South and East Asia. He holds a BA in Economics from Bocconi University in Milan, as well as a M.Sc. in Demography from the London School of Economics and a Ph.D. in Population Studies from the Office of Population Research of Princeton University. Michele has published a number of articles on varied human development topics in refereed journals and three books with the World Bank, the first on malnutrition in India and the second and the third on the consequences of population aging in Brazil and Argentina respectively.

Netsanet Workie

Senior Economist (Health)

nwaleign@worldbank.org

I am currently the task team leader for Zambia health services improvement project, impact evaluation of Rwanda community performance based financing program, and Seychelles health sector advisory services. I also provide support to the development of Liberia's post Ebola investment plan for building a resilient health system.

Shiela Dutta

Senior Health Specialist

sdutta@worldbank.org

Patricio Marquez

Lead Health Specialist

Pmarquez@worldbank.org

Patricio V. Marquez is a World Bank Lead Health Specialist, who served as Public Health Focal Point at the Health, Nutrition and Population Global Practice of the World Bank over June 2014-present. Since July 2014, he has been the co-lead of the WBG team that designed the Ebola Emergency Response Program for West Africa and prepared the US\$390 million Ebola Emergency Response Project for Guinea, Liberia and Sierra Leone. He was also deployed to WHO Geneva to help coordinate the WB and WHO interface on the Global Response to Ebola over the September-December 2014 period. He also served as the co-lead with WHO of the Thematic Working Group on Health, Nutrition and Water and Sanitation for the preparation of the UNDP-multi agency and multi sector Ebola Recovery Assessment over January-March 2015. Before assuming this role, he served as Human Development Sector Leader for Ghana, Liberia and Sierra Leone, as well as for Malawi, Zambia and Zimbabwe, based in Accra, Ghana. Prior, he served as Health Cluster Leader for the countries in Southern Africa in 2011-12 and worked in the Europe and Central Asia (ECA) region over 2004-2011, assisting countries in designing and implementing health system reform and disease-specific projects. Over 1988-2003, he prepared and managed health systems development and strengthening, science and technology, and HIV/AIDS prevention and control projects in Latin America and the Caribbean. He has authored reports on non-communicable diseases and road traffic injuries in Sub-Saharan Africa, road safety in ECA, the demographic and health crisis in Russia, health system challenges in Russia, blood transfusion systems and the spread of HIV in Central Asia, HIV/AIDS in the Caribbean, non-communicable diseases and health systems in Chile, and health system assessments in several countries. He also co-authored a recent report on non-communicable diseases (NCDs) in China, and a policy note on NCDs and road traffic injuries in Cambodia. He helped prepare the \$1 billion Global Avian Influenza Preparedness and Control Framework Program in 2006, and the \$1.2 billion Global Food Response Facility in 2008. He pursued his graduate studies at the Johns Hopkins University Bloomberg School of Public Health.

Pia Schneider

Lead Evaluation Officer

pschneider@worldbank.org

Pia Schneider is Lead Evaluator for Human Development at the Independent Evaluation Group (IEG) of the World Bank. She was the task team leader of two IEG evaluations: World Bank Group support to youth employment, and of Bank Group support to health financing reforms. She has previously worked as an economist for the Bank's Europe and Central Asia human development department. She holds a BA and MA in economics from the University of Basel (Switzerland) and a Ph.D. in health economics from the University of London.
