Note: Countries eligible to borrow from IBRD and IDA are listed in Appendix 6. For consistency of comparison, the Republic of Korea is included as a country eligible to borrow for all periods covered by this table. The Republic of Korea (a former graduate) again became eligible to borrow in December 1997. Amounts may not add to totals because of rounding.

a. Amounts exclude disbursements for debt-reduction and net advance disbursements. Amounts also exclude disbursements for structural and sectoral adjustment loans and hybrids (loans that support policy and institutional reforms in a specific sector by financing both a policy component disbursed against imports and investment component), and disbursements under HIPC Initiative grants.

b. Percentages are based on the dollar amounts shown under the total disbursements section. These percentages show both the breakdown between countries eligible to borrow from the IBRD and/or IDA, and countries not eligible to borrow, for individual goods categories and the share of each goods category compared with total disbursements.
