

Building a Sustainable Open Data Ecosystem

Open Knowledge @okfn
Daniela Mattern

The value of Open Data is in the Reuse

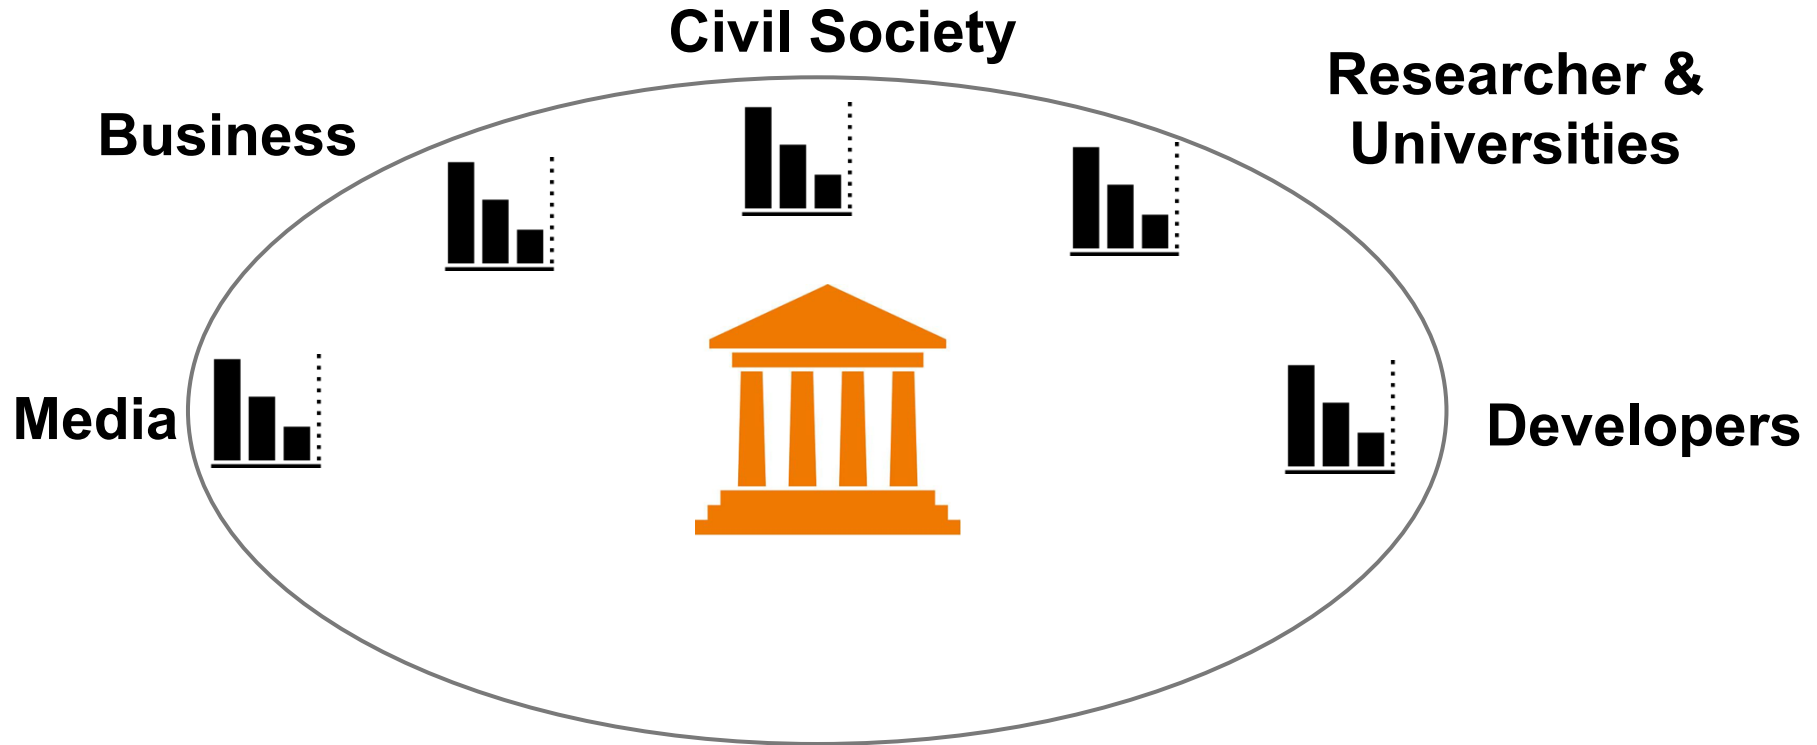

Reuse requires USERS

1. The Open Data Ecosystem

In Sustainable Open Data Ecosystems, All Actors Play an Essential Role

2. The Open Data Ecosystem

The Role of Business: Stimulating Growth & Employment through Data Driven Innovation

Open Data Needs:

- Geographic, transport, demographic, company registers etc
- Involvement in Delivering Open Data Infrastructure
- Real Time & Timely Data, Clear licensing (commercial use) & APIs

Contribution to Open Data Ecosystem:

- New Products and Services (Applications, Business Processes)
- Improved Commercial and Public Services
- Higher Gross Domestic Product (GDP)

All Sectors Benefit from the Availability of Open Data

With Zillow, you can see estimates of home and rental values at the neighborhood level so you can **make more informed housing decisions.**

Data Sources
Bureau of Labor Statistics, Federal Housing Finance Agency, Census Bureau, American Community Survey

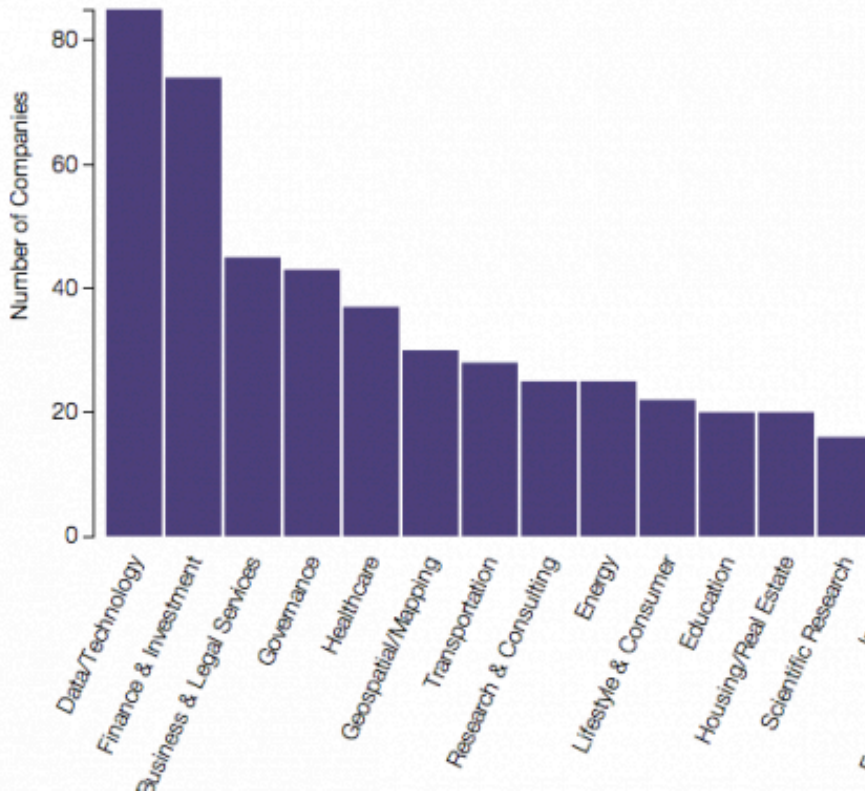

- Zillow**
- Location**
Seattle, WA
- Financing**
NASDAQ:Z
- Jobs**
850 employees

Using Mapbox, you can **design and publish maps** to visualize topographical data.

Data Sources
US Census TIGER, USGS Landsat Imagery, USGS National Elevation Dataset, MODIS on NASA's Terra and Aqua satellites, NASA SRTM, National Land Cover Data (DOI/USGS)

- Mapbox**
- Location**
Washington, DC
- Financing**
Raised \$10.6 million
- Jobs**
47 employees

Types of Companies

Businesses Build New Services on Top of Open Data

THE WORLD'S PUBLIC DATA

Enigma is amassing the largest collection of public data produced by governments, universities, companies, and organizations. Concentrating all of this data provides new insights into economies, companies, places and individuals.

Government

- Procurement Contracts
- Legislation and Voting Records
- Property and Real Asset Ownership
- Government Employee Salaries

Public Records

- Corporate Registrations
- FCC Licenses
- Granted Patents
- Liquor Licenses
- Professional Licenses

Politics

- Campaign Contributions
- Lobbying Records
- Political Organizations
- Political Relationships

Businesses Improve Efficiency & Service Delivery Through the Use of Open Data

HOME NEWS ROADWORKS PORTAL PUBLIC DATA OTHER SERVICES ABOUT US

API data services

The ELGIN Roadworks API is available to organisations wishing to incorporate timely local roadworks information into their applications.

ELGIN redistributes public sector information under the Open Government Licence and provides its added value aggregation and application services to industry via its easy to use API (Application Programme Interface).

Some of the many application providers which take a real-time feed of roadworks information from ELGIN:

API data services «

Traffic Management «
Module

Contact

Get in touch with ELGIN

 Email info@elgin.org.uk

 Follow us on Twitter

Chairman, National Users Group & Traffic Manager, Warwickshire says:

"ELGIN is at the heart of our attempts to improve the planning and coordination of roadworks. It works across all our systems and provides our contractors and the Utilities with a mapping portal with a deep view into public data. It more than repays our subscription with the efficiencies it

The Role of Civil Society: Strengthening the Feedback Loops Between Government and Citizens

Open Data Needs:

- Data to monitor public policy (health, education, housing)
- Active participation in the development of open data policies (ie through representation on Open Data Councils)
- Engagement from government in civil society generated solutions
- Anonymous Open Data Requests

Contribution to Open Data Ecosystem:

- Platforms for citizen participation resulting in improved public services
- Enhance access to and reuse of released datasets
- Improve trust through monitoring & increased transparency

Citizens enhance data resulting in new services & better data

Find wheelchair accessible places.

The map displays a section of Berlin with various landmarks and streets. Key locations include the Margarethe-von-Witzleben-Schule, St. Pius-Kirche, and the Berliner Kriminal Theater. Streets shown are Friedrichsberger Str., Schulweg, Friedenstraße, Koppensstraße, Palisadenstraße, and Fehrbauer Str. A legend on the left explains the color-coded icons for wheelchair accessibility: Green for 'Yes' (entrance without steps, all rooms without steps, accessible toilet), Yellow for 'Limited' (entry has a step, most rooms without steps, toilet not accessible), Red for 'No' (entry has steep steps, rooms not accessible), and Grey for 'Unknown'. The map also shows a search bar with 'berlin' entered and a 'Find' button. A sidebar on the left contains navigation links and a category filter. At the bottom, there are links for 'Available on the' and 'ANDROID APP ON'.

The Role of Journalists: Informing through Data Driven Storytelling and Platforms

Open Data Needs:

- Responsiveness to freedom of information requests
- Clear legal framework on wider use of information (freedom of speech, freedom of the press etc.)
- Clarity on commercial use of open data

Contribution to Open Data Ecosystem:

- Data Visualizations & Storytelling
- More Informed Citizens & Input for Public Policy
- Services for Citizens

Journalists Use Data to Develop & Offer New Services via Traditional Media Platforms

The High Costs and Hidden Perils of a Treatment Guaranteed to All

Dialysis Facility Tracker

By Robin Fields, Al Shaw, and Jennifer LaFleur, ProPublica, Dec. 22, 2010

This site is for dialysis patients and others who want to learn about the quality of care at individual dialysis clinics. Among patients treated at a facility have been hospitalized, report certain types of infections or are placed on the transplant list. The collected by contractors of the Centers for Medicare and Medicaid Services, the federal agency that oversees most dialysis care.

Journalists Use Data to Analyse & Tell Complex Stories, at times Demonstrating the Need for Better Public Policies

The Role of Researchers: Uncovering How our Societies, our Economies and our Environments Truly Function

Open Data Needs:

- Demographic & Census Data, Economic & Company Data, Environmental Data etc.
- Access to Publically Funded Research

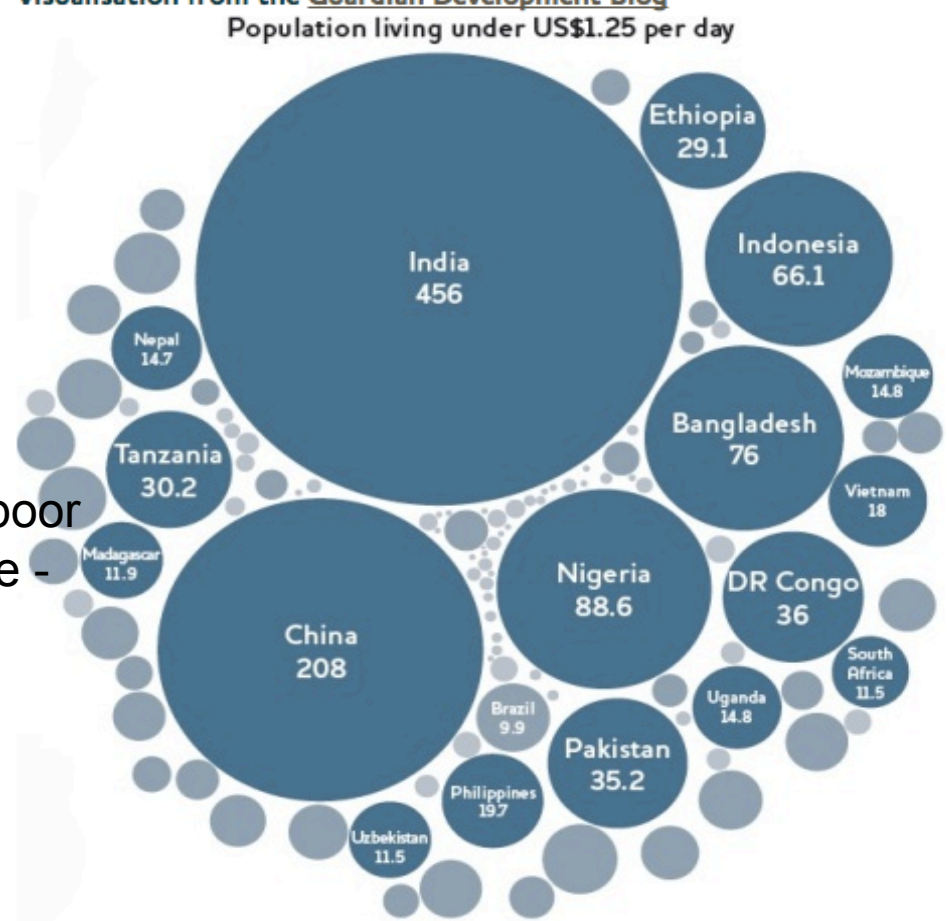

Contribution to Open Data Ecosystem:

- Evidence Based Policy & Data Driven Solutions to Public Policy Problems
- Debunking old theories & Elaborating the inner workings of society
- Dissemination of Knowledge about Open Data and Access to Information

Researchers Use Data to Challenge commonly held theories

“There is a new 'bottom billion' of 960m poor people or 72 per cent of the world's poor who live not in poor countries but in middle - income countries (MICs)”

The Role of Civic Technologists: Inspiring new engagement through early adoption, enthusiasm & commitment

Open Data Needs:

- Robust Documentation, Clearly Licensed & Machine Readable Data; APIs
- Commitment of Government to Open Source and Clarity on Government Software Procurement
- Public Sector participation & explanation of challenges

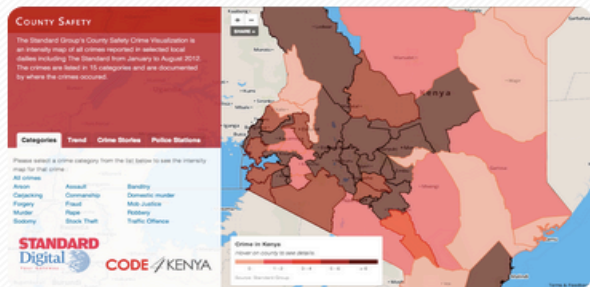

Contribution to Open Data Ecosystem:

- Improved Public Services through Applications
- Enhance Access to and Reuse of Released Datasets
- Improved Data Quality

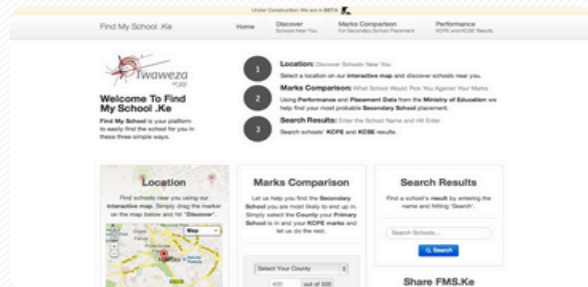

Civic Tech Communities have Proven More Prolific and Sustainable when There is Government Buy-In

MINUTA DO PROJETO DE LEI DO PLANO DIRETOR ESTRATÉGICO DO MUNICÍPIO DE SÃO PAULO

Total de comentários (1198)

FERNANDO HADDAD, Prefeito do Município de São Paulo, no uso das atribuições que lhe são conferidas por lei, faz saber que a Câmara Municipal, em sessão de __ de __ 2013, decretou e eu promulgo a seguinte lei:

Art. 1º Em atendimento ao disposto na Lei Federal n. 10.257, de 2001, o Estatuto da Cidade, e em observância aos artigos 150 e seguintes da Lei Orgânica do Município de São Paulo, esta lei promove a revisão do Plano Diretor Estratégico do Município de São Paulo.

Parágrafo único. A presente lei é o instrumento básico da política de desenvolvimento e expansão urbana do Município de São Paulo, e normatiza o cumprimento da função social da propriedade urbana a partir das exigências fundamentais de ordenação da cidade previstas na Constituição Federal, observando-se, ainda, as diretrizes gerais de política urbana veiculadas pelo Estatuto da Cidade.

TÍTULO I – DOS PRINCÍPIOS E OBJETIVOS QUE REGEM O PLANO DIRETOR ESTRATÉGICO 5

Justificativa: Desta forma, o municípe poderá participar individualmente, sem se vincular a associações ou representações.

um ano atrás

Aurea Colaço (SOS Itaim Bibi)

Contribuição: Incluir parágrafo único no Art. 2º com a seguinte redação:

Open Data Inventory informs Prioritisation of Data Release

What it is?: a catalogue of databases and systems that exist in different government agencies and public companies containing metadata and descriptions

Options?:

- Central vs decentral
- Interactive vs spreadsheet
- Self-reported vs third party research

Why?:

- Prioritisation of Data Release (estimate Complexity)
- Information on Data Availability to have better informed Freedom of Information Requests

Good Practices?:

- Include the need for an open data inventory in the legislation on open data
- Publish data inventory as open data

Open Data Inventories should be Open Data

All India Pincode Directory

Ministry of Communications and Information Technology, Department of Posts

Postal Index Number (PIN) or PIN Code is a 6 digit code of Post Office numbering used by India Post. The PIN was introduced on August 15, 1972. There are 9 PIN regions in the country. The first 8 are geographical regions and the digit 9 is reserved for the Army Postal Service. The first digit indicates one of the regions. The first 2 digits together indicate the sub region or one of the postal circles. The first 3 digits together indicate a sorting / revenue district. The last 3 digits refer to the delivery Post Office.

Keywords: PIN, PINCODE, Post, Post code, Post office, Postal, Postal code, Postoffice

Suggestion 934

FEBRUARY 2010 | [Transport](#)

All bus stop locations, route information & timetables. Tube timetables and any live data that is captured. Mainline station timetables and live departure data.

I want this 589 people want this

Suggestion

JUNE 2010 | [Transport](#)

Access to live "next bus" data (minutes until next bus, including bus route # and final destination) for any given bus stop, or for all bus stops where currently provided (allowing users to replicate existing next bus display online for a given bus stop, or to interpolate next bus info for a stop where this data is not yet displayed).

I want this 395 people want this

Suggestion 930

FEBRUARY 2010 | [Transport](#)

All of TfL's data on patronage by bus route, LUL station entry and exit figures, bus and rail origin/destination data(RODS and BODS) oyster card data revenues by station/bus route

I want this 302 people want this

When data is managed by different agencies, government levels or throughout multiple years various quality problems arise

Challenge: Build a map of all public services with phone numbers, opening hours, addresses, available services. (ex. Schools, Hospitals, Community Centres, Parks, etc.)

Data is managed by multiple government agencies (different policy areas + different levels of government)

Common problems:

- No standardized for names of municipalities, states, etc.
- Abbreviations are not standardized / well documented
- No standard format for phone numbers, zip-codes, etc.
- No structured address data

Solutions:

- Publishing data according to specifications
- Defining standards
- Defining data vocabularies
- Documentation
- Data Cleaning
- **Functioning Feedback Loops between Data Users and Data Managers**

Oficina sobre a Lei de Acesso à Informação abordará a questão da moradia

Participantes poderão tirar dúvidas sobre a elaboração de pedidos de informação

A Coordenadoria de Promoção da Integridade (COPI) da **Controladoria Geral do Município (CGM)** promoverá no dia 30 de maio a segunda edição da Oficina sobre a Lei de Acesso à Informação (LAI). A oficina terá um formato interativo: os (as) participantes poderão expor suas dúvidas e redigir um pedido de informação com auxílio dos palestrantes e da equipe da Controladoria.

O evento, que abordará a questão da moradia, contará com a participação de Benedito Roberto Barbosa, o "Dito", membro da União dos Movimentos de Moradia, e de representantes do Centro de Direitos Humanos Gaspar

Garcia.

Na abertura da oficina, Fernanda Campagnucci, assessora especial da Controladoria, fará uma breve introdução sobre a Lei de Acesso à Informação. Na sequência, o representante da União dos Movimentos de Moradia discutirá as políticas públicas do Município de São Paulo no setor da moradia e falará sobre as contribuições da LAI para as ações de controle relacionadas ao tema.

Gabriel Ponzetto, diretor da Divisão de Transparência Ativa da COPI, apresentará o **Portal de Transparência Municipal** e o **Habisp.plus**, que contém um mapeamento da habitação no município de São Paulo.

Joara Marchezini, da ONG Artigo 19, explicará como deve ser feito um pedido de informação.

Após as apresentações, os participantes construirão suas próprias solicitações, que serão apreciadas pelos palestrantes e receberão contribuições para aprimorá-las.

Data: 30/05

Horário: das 9h às 12h

Local: Avenida São João, 473, 8º Andar - Galeria Olido

Inscrições: Para participar, [preencha o formulário](#) (vagas limitadas)
