Population	5.720 million	2013
GDP	\$7.226 billion	2013
GDP growth	10.5%	2013
Inflation	6.6%	2013
More Data »		

The Kyrgyz Republic has progressively increased economic output over the past two decades, due largely to market-based economic reforms adopted in the 1990s. However, without increased stability and higher investment, poverty reduction remains a challenge. [Read More »](#)

How are World Bank data/info platforms relevant for CSOs?

- Request data/info (WB Access to Info. Policy)
- Use WB-produced data to make fact-based analysis/advocacy campaigns
- Understand what WB has been doing in Kyrgyz Republic— for activity coordination or engagement opportunities.
- Take advantage of online feedback platforms. Be part of decision-making, contribute knowledge.
- Verify data and monitor what is happening on the ground
- As part of intermediary role, create simple/understandable information from data (eg. citizen budget)
- Blog about issues you work on etc. –use World Bank page..
