

Growth in Europe is slowly picking up while Central and Eastern European countries (EU-CEE) will continue to grow above European average

GROWTH IN EUROPE

EU CEE are actively expanding over 2.4 % in 2015

GROWTH IS BASED ON:

WORLD BANK GROUP

There are significant risks to this outlook

POTENTIAL INCREASE IN FINANCIAL MARKET VOLATILITY AS THE US AND EU IMPLEMENT DIVERGENT MONETARY POLICY

PRESSURE ON PUBLIC FINANCES FROM THE COMBINATION OF LOW INFLATION AND MODEST GROWTH

LIMITED AVAILABILITY OF THE NEW LENDING FOR INVESTMENT

POTENTIALLY NEGATIVE IMPACT ON CONFIDENCE IN THE REGION

To make the recovery sustainable, Europe needs to continue reforms to promote exports and investment, create jobs, and protect the vulnerable

Countries need to shift policy from fiscal and macroeconomic adjustment towards structural measures to promote growth and competitiveness. This will need to be combined with affordable social policies that help to protect the most vulnerable, while promoting greater social and labor market inclusion.

THE STRUCTURAL REFORMS INCLUDE:

CONTINUING TO REDUCE LABOR MARKET RIGIDITIES

ENHANCING THE BUSINESS ENVIRONMENT

REDUCING BARRIERS TO TRADE

PROMOTING THE SKILLS NEEDED FOR DYNAMIC JOB CREATION AND INNOVATION
