Economy Profile of Guyana

*Doing Business 2020 Indicators
(in order of appearance in the document)*

Starting a business	Procedures, time, cost and paid-in minimum capital to start a limited liability company
Dealing with construction permits	Procedures, time and cost to complete all formalities to build a warehouse and the quality control and safety mechanisms in the construction permitting system
Getting electricity	Procedures, time and cost to get connected to the electrical grid, and the reliability of the electricity supply and the transparency of tariffs
Registering property	Procedures, time and cost to transfer a property and the quality of the land administration system
Getting credit	Movable collateral laws and credit information systems
Protecting minority investors	Minority shareholders' rights in related-party transactions and in corporate governance
Paying taxes	Payments, time, total tax and contribution rate for a firm to comply with all tax regulations as well as postfiling processes
Trading across borders	Time and cost to export the product of comparative advantage and import auto parts
Enforcing contracts	Time and cost to resolve a commercial dispute and the quality of judicial processes
Resolving insolvency	Time, cost, outcome and recovery rate for a commercial insolvency and the strength of the legal framework for insolvency
Employing workers	Flexibility in employment regulation and redundancy cost

About Doing Business

The *Doing Business* project provides objective measures of business regulations and their enforcement across 190 economies and selected cities at the subnational and regional level.

The *Doing Business* project, launched in 2002, looks at domestic small and medium-size companies and measures the regulations applying to them through their life cycle.

Doing Business captures several important dimensions of the regulatory environment as it applies to local firms. It provides quantitative indicators on regulation for starting a business, dealing with construction permits, getting electricity, registering property, getting credit, protecting minority investors, paying taxes, trading across borders, enforcing contracts and resolving insolvency. *Doing Business* also measures features of employing workers. Although *Doing Business* does not present rankings of economies on the employing workers indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business, it does present the data for these indicators.

By gathering and analyzing comprehensive quantitative data to compare business regulation environments across economies and over time, *Doing Business* encourages economies to compete towards more efficient regulation; offers measurable benchmarks for reform; and serves as a resource for academics, journalists, private sector researchers and others interested in the business climate of each economy.

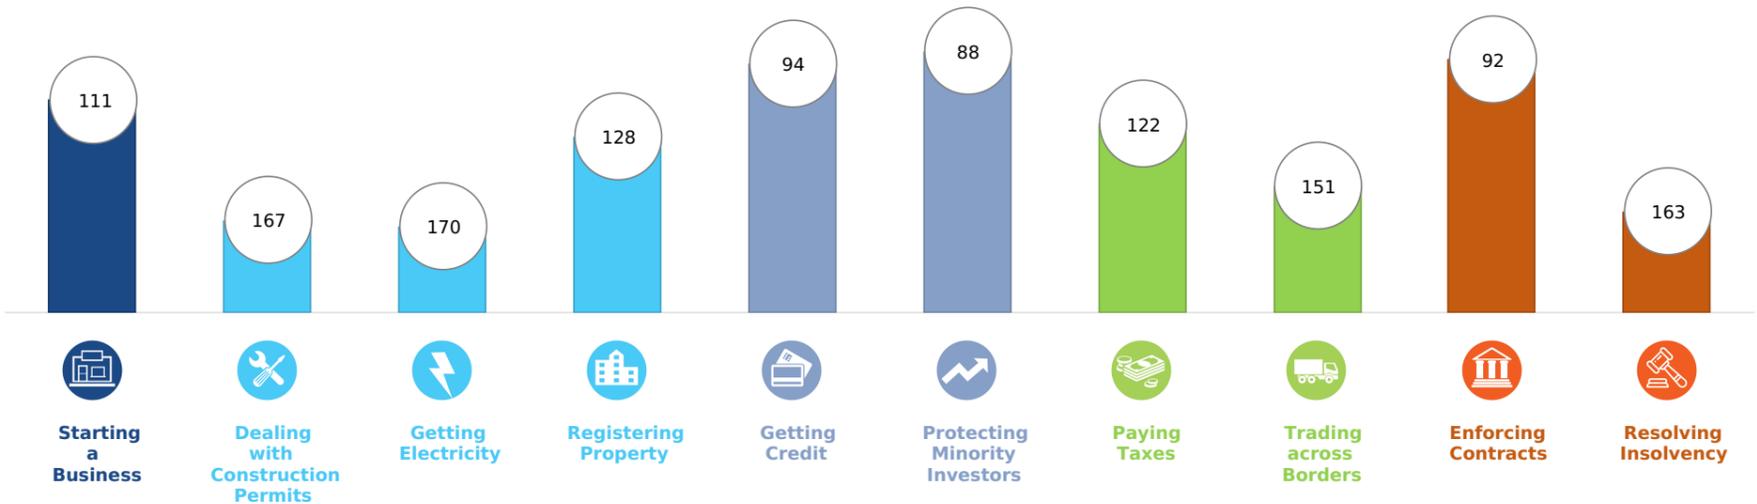

In addition, *Doing Business* offers detailed [subnational studies](#), which exhaustively cover business regulation and reform in different cities and regions within a nation. These studies provide data on the ease of doing business, rank each location, and recommend reforms to improve performance in each of the indicator areas. Selected cities can compare their business regulations with other cities in the economy or region and with the 190 economies that *Doing Business* has ranked.

The first *Doing Business* study, published in 2003, covered 5 indicator sets and 133 economies. This year's study covers 11 indicator sets and 190 economies. Most indicator sets refer to a case scenario in the largest business city of each economy, except for 11 economies that have a population of more than 100 million as of 2013 (Bangladesh, Brazil, China, India, Indonesia, Japan, Mexico, Nigeria, Pakistan, the Russian Federation and the United States) where *Doing Business* also collected data for the second largest business city. The data for these 11 economies are a population-weighted average for the 2 largest business cities. The project has benefited from feedback from governments, academics, practitioners and reviewers. The initial goal remains: to provide an objective basis for understanding and improving the regulatory environment for business around the world.

Starting a Business

This topic measures the number of procedures, time, cost and paid-in minimum capital requirement for a small- to medium-sized limited liability company to start up and formally operate in each economy's largest business city.

To make the data comparable across 190 economies, *Doing Business* uses a standardized business that is 100% domestically owned, has start-up capital equivalent to 10 times the income per capita, engages in general industrial or commercial activities and employs between 10 and 50 people one month after the commencement of operations, all of whom are domestic nationals. Starting a Business considers two types of local limited liability companies that are identical in all aspects, except that one company is owned by 5 married women and the other by 5 married men. The ranking of economies on the ease of starting a business is determined by sorting their scores for starting a business. These scores are the simple average of the scores for each of the component indicators.

The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Procedures to legally start and formally operate a company (number)</p> <ul style="list-style-type: none"> • Preregistration (for example, name verification or reservation, notarization) • Registration in the economy's largest business city • Postregistration (for example, social security registration, company seal) • Obtaining approval from spouse to start a business or to leave the home to register the company • Obtaining any gender specific document for company registration and operation or national identification card 	<p>To make the data comparable across economies, several assumptions about the business and the procedures are used. It is assumed that any required information is readily available and that the entrepreneur will pay no bribes.</p>
<p>Time required to complete each procedure (calendar days)</p> <ul style="list-style-type: none"> • Does not include time spent gathering information • Each procedure starts on a separate day (2 procedures cannot start on the same day) • Procedures fully completed online are recorded as ½ day • Procedure is considered completed once final document is received • No prior contact with officials 	<p>The business:</p> <ul style="list-style-type: none"> -Is a limited liability company (or its legal equivalent). If there is more than one type of limited liability company in the economy, the limited liability form most common among domestic firms is chosen. Information on the most common form is obtained from incorporation lawyers or the statistical office. -Operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city. -Performs general industrial or commercial activities such as the production or sale to the public of goods or services. The business does not perform foreign trade activities and does not handle products subject to a special tax regime, for example, liquor or tobacco. It is not using heavily polluting production processes. -Does not qualify for investment incentives or any special benefits. -Is 100% domestically owned. -Has five business owners, none of whom is a legal entity. One business owner holds 30% of the company shares, two owners have 20% of shares each, and two owners have 15% of shares each. -Is managed by one local director. -Has between 10 and 50 employees one month after the commencement of operations, all of them domestic nationals. -Has start-up capital of 10 times income per capita. -Has an estimated turnover of at least 100 times income per capita. -Leases the commercial plant or offices and is not a proprietor of real estate. -Has an annual lease for the office space equivalent to one income per capita. -Is in an office space of approximately 929 square meters (10,000 square feet). -Has a company deed that is 10 pages long.
<p>Cost required to complete each procedure (% of income per capita)</p> <ul style="list-style-type: none"> • Official costs only, no bribes • No professional fees unless services required by law or commonly used in practice 	<p>The owners:</p> <ul style="list-style-type: none"> -Have reached the legal age of majority and are capable of making decisions as an adult. If there is no legal age of majority, they are assumed to be 30 years old. -Are in good health and have no criminal record. -Are married, the marriage is monogamous and registered with the authorities. -Where the answer differs according to the legal system applicable to the woman or man in question (as may be the case in economies where there is legal plurality), the answer used will be the one that applies to the majority of the population.
<p>Paid-in minimum capital (% of income per capita)</p> <ul style="list-style-type: none"> • Funds deposited in a bank or with third party before registration or up to 3 months after incorporation

*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (<http://doingbusiness.org/en/methodology>). For details on the procedures reflected here, see the summary below.

Details - Starting a Business in Guyana - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p>Search for company name and reserve proposed name <i>Agency: Companies Registry</i> Searching and reserving the proposed company name can be done on the same day.</p>	1 day	GYD 175 (name search) GYD 800 (reservation)
2	<p>Obtain declaration of compliance <i>Agency: Attorney at Law</i> The exception of the declaration of compliance must be signed by an attorney. The declaration states that, to best of the declarer's knowledge and belief, no signatory to the company's articles of incorporation is a person described in Section 4(2) of the Companies Act (which states that persons under 18, of unsound mind, or with undischarged bankruptcies cannot form or join in the formation of a company) and that all the requirements of the Companies Act pertaining to the matters precedent to the registration of the company and incidental thereto have been complied with. Section 4(3) states that if such a declaration is filed, it shall be conclusive of the facts stated in it.</p>	2 days	GYD 15,000
3	<p>Register company with Registrar of Companies <i>Agency: Registrar of Companies</i> The Registrar of Companies announces the issuance of the certificate of incorporation in the Official Gazette, according to Section 479 of the Companies Act (although this is not a precondition to registration). To register with the Registrar, the company must provide the following documents: - Declaration of compliance. - Articles of incorporation. - Notice and consent of directors. - Notice and consent of secretary. - Notice of registered office.</p> <p>Since July 2008 fees and other charges to register company with Registrar of Companies are as follows: - Flat fee for certificate of incorporation: GYD 60,000. - Fees for filing and certifying copies of notices (listed above) and declaration of compliance: GYD 13,000. If the company chooses to file it with a practitioner, attorneys will charge approx. GYD\$150,000 plus VAT for handling a company incorporation in addition to the registration fee.</p>	7 days	GYD 60,000 (fixed registration fee) + GYD 13,000 (fees for filing and certifying copies of documents)
4	<p>File for tax identification number (TIN) with the Revenue Authority <i>Agency: Guyana Revenue Authority</i> Since January 2008 the TIN has replaced the PAYE number, corporate income tax number, VAT number and customs import number. In order to apply for the TIN, the following need to be submitted: - A copy of the Certificate of Incorporation - A copy of two (2) Directors' valid identification - A completed Company TIN Application Form.</p>	1 day	no charge
⇒ 5	<p>Register for VAT <i>Agency: Guyana Revenue Authority</i> Since January 1, 2007, the Value Added Tax (VAT) Act 2005 has been implemented in place of the Consumption Tax Act. A separate department of the Guyana Revenue Authority has been established to administer the Act. Applications should be made within 15 days of the start of operations, and a certificate should be issued within 10 days after the application.</p> <p>On February 01, 2017 the Value-Added Tax (Amendment) Regulations came into operation and the VAT rate was reduced from 16% to 14%. Additionally, the amendment provided for an increase in the VAT threshold from \$10,000,000 to \$15,000,000 annually. This new measure made it mandatory for businesses to register for VAT if their annual sales are equivalent to or exceeds the threshold of fifteen million dollars (\$15,000,000).</p>	7 days on average (simultaneous with previous procedure)	no charge

⇒ 6	<p>Register for the Social Security <i>Agency</i> : National Insurance Scheme</p> <p>Register with the social security office and obtain NIS employer number. The National Insurance Scheme extends Social Insurance Coverage on a compulsory basis, to all persons between the ages of sixteen (16) and sixty- (60) years who are engaged in Insurable Employment. Coverage is also extended on a voluntary basis, to persons who cease such employment before reaching age sixty- (60) years, until the attainment thereof. Employed Persons outside this age range who are in Insurable Employment are also covered, but for Industrial Benefits only. However, Self-employed Contributors are not covered for Industrial Benefits.</p> <p>Both the Employer and Employee pay Contributions into the Scheme based on a 'Payroll System'. The total Contribution for Employed Contributors is 14% of the actual Wage / Salary paid to the Employee. This is derived from a 5.6% deduction from the Employee's pay, and the remaining 8.4% paid by the Employer on behalf of the Employee. The actual wage / salary is, at present, subjected to a ceiling of \$220,000.00 per month or \$50,769.00 per week for National Insurance purposes.</p> <p>Self-employed Persons contribute 12.5% of their declared Income as Contributions, while Voluntary Contributors pay 9.3% of their Insurable Earnings as determined from the last two years of their employment.</p> <p>In order to apply, the following must be submitted:</p> <ul style="list-style-type: none"> - Certificate of Business Registration - ID card. 	7 days (simultaneous with previous procedure)	no charge
⇒ 7	<p>Make a seal <i>Agency</i> : Commercial manufacturer of seals</p> <p>The fee to make a company seal depends on whether an embossed or rubber seal is selected. Most companies use a rubber stamp. Embossed seals are now currently made in Guyana and delivered in a few days. These seals can cost about \$30,000.</p>	2 days on average (simultaneous with previous procedure)	GYD 2,000

⇒ Takes place simultaneously with previous procedure.

Dealing with Construction Permits

This topic tracks the procedures, time and cost to build a warehouse—including obtaining necessary the licenses and permits, submitting all required notifications, requesting and receiving all necessary inspections and obtaining utility connections. In addition, the Dealing with Construction Permits indicator measures the building quality control index, evaluating the quality of building regulations, the strength of quality control and safety mechanisms, liability and insurance regimes, and professional certification requirements. The most recent round of data collection was completed in May 2019. [See the methodology for more information](#)

What the indicators measure

Procedures to legally build a warehouse (number)

- Submitting all relevant documents and obtaining all necessary clearances, licenses, permits and certificates
- Submitting all required notifications and receiving all necessary inspections
- Obtaining utility connections for water and sewerage
- Registering and selling the warehouse after its completion

Time required to complete each procedure (calendar days)

- Does not include time spent gathering information
- Each procedure starts on a separate day—though procedures that can be fully completed online are an exception to this rule
- Procedure is considered completed once final document is received
- No prior contact with officials

Cost required to complete each procedure (% of income per capita)

- Official costs only, no bribes

Building quality control index (0-15)

- Quality of building regulations (0-2)
- Quality control before construction (0-1)
- Quality control during construction (0-3)
- Quality control after construction (0-3)
- Liability and insurance regimes (0-2)
- Professional certifications (0-4)

Case study assumptions

To make the data comparable across economies, several assumptions about the construction company, the warehouse project and the utility connections are used.

The construction company (BuildCo):

- Is a limited liability company (or its legal equivalent) and operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Is 100% domestically and privately owned; has five owners, none of whom is a legal entity. Has a licensed architect and a licensed engineer, both registered with the local association of architects or engineers. BuildCo is not assumed to have any other employees who are technical or licensed experts, such as geological or topographical experts.
- Owns the land on which the warehouse will be built and will sell the warehouse upon its completion.

The warehouse:

- Will be used for general storage activities, such as storage of books or stationery.
- Will have two stories, both above ground, with a total constructed area of approximately 1,300.6 square meters (14,000 square feet). Each floor will be 3 meters (9 feet, 10 inches) high and will be located on a land plot of approximately 929 square meters (10,000 square feet) that is 100% owned by BuildCo, and the warehouse is valued at 50 times income per capita.
- Will have complete architectural and technical plans prepared by a licensed architect. If preparation of the plans requires such steps as obtaining further documentation or getting prior approvals from external agencies, these are counted as procedures.
- Will take 30 weeks to construct (excluding all delays due to administrative and regulatory requirements).

The water and sewerage connections:

- Will be 150 meters (492 feet) from the existing water source and sewer tap. If there is no water delivery infrastructure in the economy, a borehole will be dug. If there is no sewerage infrastructure, a septic tank in the smallest size available will be installed or built.
- Will have an average water use of 662 liters (175 gallons) a day and an average wastewater flow of 568 liters (150 gallons) a day. Will have a peak water use of 1,325 liters (350 gallons) a day and a peak wastewater flow of 1,136 liters (300 gallons) a day.
- Will have a constant level of water demand and wastewater flow throughout the year; will be 1 inch in diameter for the water connection and 4 inches in diameter for the sewerage connection.

Figure - Dealing with Construction Permits in Guyana and comparator economies - Measure of Quality

Details - Dealing with Construction Permits in Guyana - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	Request and obtain a Soil Test <i>Agency</i> : Private laboratory Based on Chapter 4 of the Guyana Standard Code of Practice for Buildings – Part 13: Foundations for excavations GCP 9-13:2005, a soil test is required for the foundation of a warehouse.	20 days	USD 1,000
⇒ 2	Obtain a topographical map <i>Agency</i> : Private Engineer Although a topographical study is not required by law it is performed in practice as a technical requirement to have proper foundations.	15 days	USD 1,100
3	Request and obtain approval of the water and the septic plans <i>Agency</i> : Guyana Water Inc According to Article 3.11.1, BuildCo must have the septic plans approved by the Guyana Water Inc, which is obtained within two weeks with follow-Up.	14 days	no charge
4	Obtain building permit from Mayor and City Council <i>Agency</i> : Mayor and City Council The Mayor and the City Council have the authority to issue the building permit. Three copies of the plans must be submitted to the Mayor and City Council to begin the application process. The copies are then forwarded to the Central Housing and Planning Authority and to the Public Health Department. However, in practice, it is common for the applicant to contact the Central Housing and Planning Authority separately. In fact, if the applicant does not follow up with both agencies, the process can take longer than 3 months.	90 days	GYD 25,000
⇒ 5	Obtain planning permit from Central Housing and Planning Authority <i>Agency</i> : Central Housing and Planning Authority The Central Housing and Planning Authority revises the plans and forwards them to the Fire Department and the Environmental Protection Agency. When the plans come back from both agencies, the Board of the Central Housing and Planning Authority approves and issues the planning permit. Follow-up is required with the Fire Department.	90 days	GYD 30,000
⇒ 6	Follow up with Fire Department on building permit <i>Agency</i> : Fire Department Because the Fire Department is not part of the Central Housing and Planning Authority, follow-up is necessary to allow the Fire Department to make proposals or changes to the original plan.	90 days	no charge
⇒ 7	Request partial project clearance from Environmental Protection Agency (EPA) <i>Agency</i> : Environmental Protection Agency (EPA) A complete project clearance is not needed for the case study. However, it is common practice for BuildCo to submit the required documents to the Environmental Protection Agency (EPA) for the complete project clearance. After an examination the agency could rule that the project "will not significantly affect the environment." This process usually takes 5 days and there is no charge (also see Environmental Protection Act section 11 (2)).	5 days	no charge
8	Receive setting-out inspection <i>Agency</i> : Central Housing and Planning Authority According to the Guyana Code Practice - Building Regulations, BuildCo must submit form 1A to request the inspection for the setting-out. The submission must be made 2 days prior the inspection and re-confirm 1 day before the inspection.	1 day	no charge
9	Request and receive excavation and foundation inspection <i>Agency</i> : Central Housing and Planning Authority BuildCo must submit Form 1B to request this inspection. This request must be made 2 days prior to the inspection and reconfirmed 24 hours prior to the inspection.	1 day	no charge
10	Request and receive ground floor slab inspection <i>Agency</i> : Central Housing and Planning Authority BuildCo submits Form 1C to request this inspection 2 days prior and reconfirms it 24 hours before it takes place.	1 day	no charge

11	Request and receive plumbing and electrical roughing-in inspection <i>Agency</i> : Central Housing and Planning Authority BuildCo submits Form 1D to request this information 48 hours prior and reconfirms it 24 hours before it takes place.	1 day	no charge
12	Request and receive walls, columns and beams inspection <i>Agency</i> : Central Housing and Planning Authority BuildCo completes and submits Form 1 E 48 hours prior to the inspection and must reconfirm 24 hours before the inspection takes place.	1 day	no charge
13	Request and receive the roof structure inspection <i>Agency</i> : Central Housing and Planning Authority BuildCo submits form 1F to request this inspection	1 day	no charge
14	Receive inspection and obtain approval upon completion of project from Fire Department <i>Agency</i> : Fire Department Once the series of phase inspections are finalized, BuildCo. can receive a final inspection from the Fire Department.	60 days	no charge
15	Request and obtain the Occupancy Certificate <i>Agency</i> : Central Housing and Planning Authority According to Article 10 of the Guyana Code of practice - Building regulations, BuildCo must sign and issue the builder's certificate attesting that he has carried out the construction in compliance with the approved plans and the terms of the building permit. This form will be used by the Central Housing and Planning Authority to issue the occupancy permit. There will be no final inspection by the Central Housing and Planning Authority before issuing the occupancy permit, unless there are doubts that the building is not in compliance.	14 days	no charge
⇒ 16	Receive inspection prior to the installation of the septic tank and awaits approval <i>Agency</i> : Guyana Water Inc. In periurban Georgetown, there is no access to sewerage. A construction such as the Doing Business case study warehouse would use a septic tank, which can be built by BuildCo. employees.	14 days	GYD 150,000
⇒ 17	Obtain water connection from Guyana Water Inc. <i>Agency</i> : Guyana Water Inc. Upon obtaining for the Occupancy Certificate, BuildCo. can receive the water connection, which runs in parallel with the construction of the septic tank.	14 days	GYD 40,000
⇒ 18	Build septic tank <i>Agency</i> : Private firm	10 days	GYD 500,000

⇒Takes place simultaneously with previous procedure.

Details - Dealing with Construction Permits in Guyana - Measure of Quality

	Answer	Score
Building quality control index (0-15)		4.0
Quality of building regulations index (0-2)		1.0
How accessible are building laws and regulations in your economy? (0-1)	Available online; Free of charge.	1.0
Which requirements for obtaining a building permit are clearly specified in the building regulations or on any accessible website, brochure or pamphlet? (0-1)	List of required documents; Fees to be paid.	0.0
Quality control before construction index (0-1)		0.0
Which third-party entities are required by law to verify that the building plans are in compliance with existing building regulations? (0-1)	By law, there is no need to verify plans compliance; Civil servant reviews plans.	0.0
Quality control during construction index (0-3)		1.0
What types of inspections (if any) are required by law to be carried out during construction? (0-2)	Inspections at various phases.	1.0
Do legally mandated inspections occur in practice during construction? (0-1)	Mandatory inspections are not always done in practice during construction.	0.0
Quality control after construction index (0-3)		2.0
Is there a final inspection required by law to verify that the building was built in accordance with the approved plans and regulations? (0-2)	Yes, final inspection is done by government agency.	2.0
Do legally mandated final inspections occur in practice? (0-1)	Final inspection does not always occur in practice; Final inspection occurs most of the time.	0.0
Liability and insurance regimes index (0-2)		0.0
Which parties (if any) are held liable by law for structural flaws or problems in the building once it is in use (Latent Defect Liability or Decennial Liability)? (0-1)	No party is held liable under the law.	0.0
Which parties (if any) are required by law to obtain an insurance policy to cover possible structural flaws or problems in the building once it is in use (Latent Defect Liability Insurance or Decennial Insurance)? (0-1)	No party is required by law to obtain insurance .	0.0
Professional certifications index (0-4)		0.0
What are the qualification requirements for the professional responsible for verifying that the architectural plans or drawings are in compliance with existing building regulations? (0-2)	There are no specific requirements.	0.0

⚡ Getting Electricity

This topic measures the procedures, time and cost required for a business to obtain a permanent electricity connection for a newly constructed warehouse. Additionally, the reliability of supply and transparency of tariffs index measures reliability of supply, transparency of tariffs and the price of electricity. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure

Procedures to obtain an electricity connection (number)

- Submitting all relevant documents and obtaining all necessary clearances and permits
- Completing all required notifications and receiving all necessary inspections
- Obtaining external installation works and possibly purchasing material for these works
- Concluding any necessary supply contract and obtaining final supply

Time required to complete each procedure (calendar days)

- Is at least 1 calendar day
- Each procedure starts on a separate day
- Does not include time spent gathering information
- Reflects the time spent in practice, with little follow-up and no prior contact with officials

Cost required to complete each procedure (% of income per capita)

- Official costs only, no bribes
- Value added tax excluded

The reliability of supply and transparency of tariffs index (0-8)

- Duration and frequency of power outages (0-3)
- Tools to monitor power outages (0-1)
- Tools to restore power supply (0-1)
- Regulatory monitoring of utilities' performance (0-1)
- Financial deterrents limiting outages (0-1)
- Transparency and accessibility of tariffs (0-1)

Price of electricity (cents per kilowatt-hour)*

- Price based on monthly bill for commercial warehouse in case study

*Note: *Doing Business* measures the price of electricity, but it is not included in the ease of doing business score nor in the ranking on the ease of getting electricity.

Case study assumptions

To make the data comparable across economies, several assumptions about the warehouse, the electricity connection and the monthly consumption are used.

The warehouse:

- Is owned by a local entrepreneur and is used for storage of goods.
- Is located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Is located in an area where similar warehouses are typically located and is in an area with no physical constraints. For example, the property is not near a railway.
- Is a new construction and is being connected to electricity for the first time.
- Has two stories with a total surface area of approximately 1,300.6 square meters (14,000 square feet). The plot of land on which it is built is 929 square meters (10,000 square feet).

The electricity connection:

- Is a permanent one with a three-phase, four-wire Y connection with a subscribed capacity of 140-kilo-volt-ampere (kVA) with a power factor of 1, when 1 kVA = 1 kilowatt (kW).
- Has a length of 150 meters. The connection is to either the low- or medium-voltage distribution network and is either overhead or underground, whichever is more common in the area where the warehouse is located and requires works that involve the crossing of a 10-meter road (such as by excavation or overhead lines) but are all carried out on public land. There is no crossing of other owners' private property because the warehouse has access to a road.
- Does not require work to install the internal wiring of the warehouse. This has already been completed up to and including the customer's service panel or switchboard and the meter base.

The monthly consumption:

- It is assumed that the warehouse operates 30 days a month from 9:00 a.m. to 5:00 p.m. (8 hours a day), with equipment utilized at 80% of capacity on average and that there are no electricity cuts (assumed for simplicity reasons) and the monthly energy consumption is 26,880 kilowatt-hours (kWh); hourly consumption is 112 kWh.
- If multiple electricity suppliers exist, the warehouse is served by the cheapest supplier.
- Tariffs effective in January of the current year are used for calculation of the price of electricity for the warehouse. Although January has 31 days, for calculation purposes only 30 days are used.

Getting Electricity - Guyana

Standardized Connection

Name of utility	Guyana Power and Light Inc. (GPL)
Price of electricity (US cents per kWh)	32.8
City Covered	Georgetown

Indicator	Guyana	Latin America & Caribbean	OECD high income	Best Regulatory Performance
Procedures (number)	8	5.5	4.4	3 (28 Economies)

Details - Getting Electricity in Guyana - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p>Obtain compliance certificate for internal wiring <i>Agency</i> : Ministry of Public Infrastructure The customer has to obtain an internal wiring certificate from the Electrical Inspectorate Division within the Ministry of Public Infrastructure.</p>	4 calendar days	GYD 50,000
2	<p>Submit application at the Commercial Office of Guyana Power and Light Inc. (GPL) and pay security deposit <i>Agency</i> : Guyana Power and Light Inc. (GPL) The customer submits the application for connection at the commercial office of the utility and pays the security deposit. The following documents need to be attached: Proof of ownership, valid form of identification and certificate of inspection of internal wiring.</p>	1 calendar day	GYD 1,391,439.48
3	<p>Receive external site inspection by GPL <i>Agency</i> : Guyana Power and Light Inc. (GPL) An initial investigation is conducted to establish the availability of network infrastructure.</p>	1 calendar day	GYD 0
4	<p>Receive second external inspection and estimate by GPL <i>Agency</i> : Guyana Power and Light Inc. (GPL) A second investigation is conducted if capital works are required, after which the fee estimate is provided.</p>	12 calendar days	GYD 0
5	<p>Submit application for electricity supply to GPL and receive acceptance of offer form <i>Agency</i> : Guyana Power and Light Inc. (GPL) A quotation is issued with an acceptance of offer form (AOF). The AOF is a document the client signs agreeing to the terms of supply.</p>	21 calendar days	GYD 0
⇒ 6	<p>Purchase distribution transformer and low-voltage lines <i>Agency</i> : Electrical Contractor The customer or his/her contractor purchases the distribution transformer and takes the transformer to the GPL Transformer workshop for testing. The customer/his electrical contractor buys the LV lines. The utility company usually plants the pole with the transformer & H/V lines on the side of the road where the customer's building is located. The secondary cable runs down the pole in the customer's compound.</p>	6 calendar days	GYD 2,611,992
7	<p>Have transformer tested by GPL <i>Agency</i> : Guyana Power and Light Inc. (GPL) The customer or his/her contractor takes the transformer to the GPL Transformer workshop for testing. The Manufacturer specification document has to be submitted with the transformer. GPL verifies that the transformer complies with the norms and standards of GPL</p>	1 calendar day	GYD 35,000
8	<p>Receive external works and meter installation by GPL <i>Agency</i> : Guyana Power and Light Inc. (GPL) All design for the external connection is done by the utility. The physical works of installing the transformer and the primary lines are the responsibility of the utility. The meter is installed by the utility at the same time of the connection works.</p>	42 calendar days	GYD 0

⇒ Takes place simultaneously with previous procedure.

Details - Getting Electricity in Guyana - Measure of Quality

	Answer
Reliability of supply and transparency of tariff index (0-8)	0
Total duration and frequency of outages per customer a year (0-3)	0
System average interruption duration index (SAIDI)	113.0
System average interruption frequency index (SAIFI)	106.0
What is the minimum outage time (in minutes) that the utility considers for the calculation of SAIDI/SAIFI	5.0
Mechanisms for monitoring outages (0-1)	1
Does the distribution utility use automated tools to monitor outages?	Yes
Mechanisms for restoring service (0-1)	0
Does the distribution utility use automated tools to restore service?	No
Regulatory monitoring (0-1)	1
Does a regulator—that is, an entity separate from the utility—monitor the utility's performance on reliability of supply?	Yes
Financial deterrents aimed at limiting outages (0-1)	1
Does the utility either pay compensation to customers or face fines by the regulator (or both) if outages exceed a certain cap?	Yes
Communication of tariffs and tariff changes (0-1)	1
Are effective tariffs available online?	Yes
Link to the website, if available online	http://www.gplinc.net/understand_bill
Are customers notified of a change in tariff ahead of the billing cycle?	Yes

Note:

If the duration and frequency of outages is 100 or less, the economy is eligible to score on the Reliability of supply and transparency of tariff index.

If the duration and frequency of outages is not available, or is over 100, the economy is not eligible to score on the index.

If the minimum outage time considered for SAIDI/SAIFI is over 5 minutes, the economy is not eligible to score on the index.

Registering Property

This topic examines the steps, time and cost involved in registering property, assuming a standardized case of an entrepreneur who wants to purchase land and a building that is already registered and free of title dispute. In addition, the topic also measures the quality of the land administration system in each economy. The quality of land administration index has five dimensions: reliability of infrastructure, transparency of information, geographic coverage, land dispute resolution, and equal access to property rights. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure

Procedures to legally transfer title on immovable property (number)

- Preregistration procedures (for example, checking for liens, notarizing sales agreement, paying property transfer taxes)
- Registration procedures in the economy's largest business city.
- Postregistration procedures (for example, filling title with municipality)

Time required to complete each procedure (calendar days)

- Does not include time spent gathering information
- Each procedure starts on a separate day - though procedures that can be fully completed online are an exception to this rule
- Procedure is considered completed once final document is received
- No prior contact with officials

Cost required to complete each procedure (% of property value)

- Official costs only (such as administrative fees, duties and taxes).
- Value Added Tax, Capital Gains Tax and illicit payments are excluded

Quality of land administration index (0-30)

- Reliability of infrastructure index (0-8)
- Transparency of information index (0-6)
- Geographic coverage index (0-8)
- Land dispute resolution index (0-8)
- Equal access to property rights index (-2-0)

Case study assumptions

To make the data comparable across economies, several assumptions about the parties to the transaction, the property and the procedures are used.

The parties (buyer and seller):

- Are limited liability companies (or the legal equivalent).
- Are located in the periurban (that is, on the outskirts of the city but still within its official limits) area of the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Are 100% domestically and privately owned.
- Perform general commercial activities.

The property (fully owned by the seller):

- Has a value of 50 times income per capita, which equals the sale price.
- Is fully owned by the seller.
- Has no mortgages attached and has been under the same ownership for the past 10 years.
- Is registered in the land registry or cadastre, or both, and is free of title disputes.
- Is located in a periurban commercial zone (that is, on the outskirts of the city but still within its official limits), and no rezoning is required.
- Consists of land and a building. The land area is 557.4 square meters (6,000 square feet). A two-story warehouse of 929 square meters (10,000 square feet) is located on the land. The warehouse is 10 years old, is in good condition, has no heating system and complies with all safety standards, building codes and legal requirements. The property, consisting of land and building, will be transferred in its entirety.
- Will not be subject to renovations or additional construction following the purchase.
- Has no trees, natural water sources, natural reserves or historical monuments of any kind.
- Will not be used for special purposes, and no special permits, such as for residential use, industrial plants, waste storage or certain types of agricultural activities, are required.
- Has no occupants, and no other party holds a legal interest in it.

Registering Property - Guyana

Indicator	Guyana	Latin America & Caribbean	OECD high income	Best Regulatory Performance

Figure - Registering Property in Guyana and comparator economies - Measure of Quality

Details - Registering Property in Guyana - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p>Lawyer executes sale-purchase agreement <i>Agency: Lawyer</i> While not mandatory, it is common practice for a lawyer to advise the parties on the transfer process, in addition to drafting and executing the sale-purchase agreement. The law states a fee of 0.8% for both parties but in practice lawyers round it up to 1% and most of them charge 1% to each of the two parties.</p>	1 day	GYD 964,690.82; (2% property value (1% for seller+1% for buyer))
2	<p>Obtain official valuation on the property <i>Agency: Chief Valuation Office</i> Parties call the Chief Valuer Office to make an appointment. The valuator comes either the same day or the following day to make an assessment and presents the parties with a document attesting to the amount. It is important to note that the valuation may be completed by the state valuation office or by a private valuator (in which case the cost would be higher). Although there is no official cost attached to the valuation by a state valuation officer, it will be necessary to pay the officer transportation fees - approximately 5,000 GYD.</p>	5 days	GYD 48,234.54; (0.1% of property value)
3	<p>Obtain a Certificate of Compliance from the Inland Revenue Department <i>Agency: Internal Revenue Department of the Guyana Revenue Authority</i> A Certificate of Compliance is obtained at the Inland Revenue Department certifying that all taxes in relation to the parties have been paid, or that they pay any outstanding taxes at that time. In case any capital gains arise, a 20% tax on capital gains will be applied to the transaction.</p> <ul style="list-style-type: none"> • A copy of the transport/lease/title deed; • An agreement of sale and a current valuation for the property; • Where the property was acquired prior to 1.1.1991, the valuation as at 1.1.1991 as well as current valuation; • A copy of the receipt of agent/commission fees or legal fees paid; • A National Identification Card or valid Passport; • A Power of Attorney, if acting on behalf of someone; • Documentary evidence of capital improvement done after acquisition or 1.1.1991 value of asset and other expenses incurred in the transaction. <p>In addition to the documents listed above, the taxpayer must submit to the Guyana Revenue Authority (GRA) his/her Taxpayer Identification Number (TIN), his/her tax returns (including the return for the preceding year of income) and a completed application form provided by the GRA.</p> <p>After the documents listed above are submitted to the GRA to the satisfaction of the Authority, the Certificate of Compliance can be issued.</p>	5 days	no charge
⇒ 4	<p>Obtain a Certificate of Rates and Taxes from the relevant local tax authority <i>Agency: Local Tax Authority - City council</i> A Certificate of Rates and Taxes is obtained from the relevant local tax authority certifying that all rates and taxes in relation to the property have been paid in full. The certificate is necessary in order to register.</p>	2 days	GYD 1,500

5	<p>Lawyer lodges the transfer instrument with the Registrar of Lands <i>Agency</i> : Registrar of Lands</p> <p>The required documentation is lodged with the Registrar of Lands. Taxes and registration fees are calculated. Lodging the documents with the registry takes one day but the time the lawyer needs to prepare these documents brings it up to 3-4 days. The documentation shall include: (i) Transfer instrument signed by an attorney (obtained in Procedure 1); (ii) "Affidavit of the vendor" in which vendor confirms his ownership and that he sold the land for this amount. This is signed and sworn before the Commission of Oaths, (iii) "Affidavit of the purchaser" in which purchaser confirms he bought the land for this amount. This is also signed and sworn before the Commission of Oaths; (iv) Compliance document from the Inland Revenue Authority (obtained in Procedure 3), (v) "Rates and Taxes Certificate", which is the certificate of compliance with local taxes (obtained in Procedure 4), and (vi) valuation of the land (obtained in Procedure No. 2).</p> <p>The amount to be paid as filing fees and stamp duty at the Deed's Registry is 2.5% of the value or the purchase price of the property to be transferred. This amount is stipulated by statute so that the parties can pay immediately upon the filing of the relevant documents. It is a common practice for the staff at the Deed's Registry to calculate the fees in your presence to verify the amount to be paid. There is no document required to pay the stamp duty and filing fees. The fees can be paid when the relevant documents are being filed since it is a fixed percentage.</p>	4 days	GYD 1,205,863.52; (2% property value (stamp duty) + 0.5% of property value (registration fee))
6	<p>Search and typing of Certificate of Title <i>Agency</i> : Registrar of Lands</p> <p>After the documents are filed and filing fees paid, the matter goes through a general query stage where the staff of the Land Registry checks to ensure that the property is not encumbered, affidavits are in order etc.</p> <p>Once the documents are in order the matter is then sent to be advertised in the Official Gazette for two (2) consecutive weeks and if there is no opposition raised it is then passed before the Registrar of Deeds or the Deputy Registrar of Deeds.</p> <p>The final deed can be uplifted at the Deed's Registry approximately one (1) week after it is passed.</p>	30 days	Already paid in Procedure 5
7	<p>Seller must inform the City Council of the change of ownership <i>Agency</i> : City Council</p> <p>According to Section 211 of the Municipal and District Council Act, Chapter 28:01, the new owner must inform the City Council of the change of ownership and submit a copy of the deed within three months after the deed is registered.</p>	1 day	no charge

⇒ Takes place simultaneously with previous procedure.

Details - Registering Property in Guyana - Measure of Quality

	Answer	Score
Quality of the land administration index (0-30)		7.5
Reliability of infrastructure index (0-8)		1.0
Type of land registration system in the economy:	Dual system (Title & Deed)	
What is the institution in charge of immovable property registration?	There are two registrations systems and institutions in Guyana: (i) Land Registry (system taken into account in this section) (ii) Deeds Registry	
In what format land title certificates are kept at the immovable property registry of the largest business city of the economy—in a paper format or in a computerized format (scanned or fully digital)?	Paper	0.0
Is there a comprehensive and functional electronic database for checking for encumbrances (liens, mortgages, restrictions and the like)?	No	0.0
Institution in charge of the plans showing legal boundaries in the largest business city:	Guyana Lands & Surveys Commission (GL&SC) (Land Information and Mapping Division)	
In what format cadastral plans are kept at the mapping agency of the largest business city of the economy—in a paper format or in a computerized format (scanned or fully digital)?	Paper	0.0
Is there an electronic database for recording boundaries, checking plans and providing cadastral information (geographic information system)?	No	0.0
Is the information recorded by the immovable property registration agency and the cadastral or mapping agency kept in a single database, in different but linked databases or in separate databases?	Separate databases	0.0
Do the immovable property registration agency and cadastral or mapping agency use the same identification number for properties?	Yes	1.0
Transparency of information index (0-6)		3.0
Who is able to obtain information on land ownership at the agency in charge of immovable property registration in the largest business city?	Anyone who pays the official fee	1.0
Is the list of documents that are required to complete any type of property transaction made publicly available—and if so, how?	Yes, online	0.5
Link for online access:	http://www.business.gov.gy/doing-business/3-how-to-get-property/	
Is the applicable fee schedule for any type of property transaction at the agency in charge of immovable property registration in the largest business city made publicly available—and if so, how?	Yes, online	0.5
Link for online access:	http://www.business.gov.gy/wp-content/uploads/2016/05/Attachment-4.1.pdf	
Does the agency in charge of immovable property registration agency formally commit to deliver a legally binding document that proves property ownership within a specific timeframe –and if so, how does it communicate the service standard?	No	0.0
Link for online access:		
Is there a specific and independent mechanism for filing complaints about a problem that occurred at the agency in charge of immovable property registration?	No	0.0
Contact information:		

Are there publicly available official statistics tracking the number of transactions at the immovable property registration agency?	No	0.0
Number of property transfers in the largest business city in 2018:		
Who is able to consult maps of land plots in the largest business city?	Anyone who pays the official fee	0.5
Is the applicable fee schedule for accessing maps of land plots made publicly available—and if so, how?	Yes, online	0.5
Link for online access:	https://www.business.gov.gy/wp-content/uploads/2016/05/Attachment-5.1.pdf	
Does the cadastral/mapping agency formally specifies the timeframe to deliver an updated cadastral plan—and if so, how does it communicate the service standard?	No	0.0
Link for online access:		
Is there a specific and independent mechanism for filing complaints about a problem that occurred at the cadastral or mapping agency?	No	0.0
Contact information:		
Geographic coverage index (0-8)		0.0
Are all privately held land plots in the largest business city formally registered at the immovable property registry?	No	0.0
Are all privately held land plots in the economy formally registered at the immovable property registry?	No	0.0
Are all privately held land plots in the largest business city mapped?	No	0.0
Are all privately held land plots in the economy mapped?	No	0.0
Land dispute resolution index (0-8)		3.5
Does the law require that all property sale transactions be registered at the immovable property registry to make them opposable to third parties?	Yes	1.5
Legal basis:	Land Registry Act, Cap 5:02	
Is the system of immovable property registration subject to a state or private guarantee?	Yes	0.5
Type of guarantee:	State guarantee	
Legal basis:	Section 128 of the Land Registry Act, Cap 5:02	
Is there a is a specific, out-of-court compensation mechanism to cover for losses incurred by parties who engaged in good faith in a property transaction based on erroneous information certified by the immovable property registry?	Yes	0.5
Legal basis:	See Section 127 and 128 of the Land Registry Act, Cap 5:02	
Does the legal system require a control of legality of the documents necessary for a property transaction (e.g., checking the compliance of contracts with requirements of the law)?	Yes	0.5
If yes, who is responsible for checking the legality of the documents?	Registrar; Lawyer;	
Does the legal system require verification of the identity of the parties to a property transaction?	Yes	0.5
If yes, who is responsible for verifying the identity of the parties?	Registrar; Lawyer;	
Is there a national database to verify the accuracy of government issued identity documents?	No	0.0
What is the Court of first instance in charge of a case involving a standard land dispute between two local businesses over tenure rights for a property worth 50 times gross national income (GNI) per capita and located in the largest business city?	The High Court	

How long does it take on average to obtain a decision from the first-instance court for such a case (without appeal)?	More than 3 years	0.0
Are there publicly available statistics on the number of land disputes at the economy level in the first instance court?	No	0.0
Number of land disputes in the economy in 2018:		
Equal access to property rights index (-2-0)		0.0
Do unmarried men and unmarried women have equal ownership rights to property?	Yes	
Do married men and married women have equal ownership rights to property?	Yes	0.0

Getting Credit

This topic explores two sets of issues—the strength of credit reporting systems and the effectiveness of collateral and bankruptcy laws in facilitating lending. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure

Strength of legal rights index (0-12)

- Rights of borrowers and lenders through collateral laws (0-10)
- Protection of secured creditors' rights through bankruptcy laws (0-2)

Depth of credit information index (0-8)

- Scope and accessibility of credit information distributed by credit bureaus and credit registries (0-8)

Credit bureau coverage (% of adults)

- Number of individuals and firms listed in largest credit bureau as a percentage of adult population

Credit registry coverage (% of adults)

- Number of individuals and firms listed in credit registry as a percentage of adult population

Case study assumptions

Doing Business assesses the sharing of credit information and the legal rights of borrowers and lenders with respect to secured transactions through 2 sets of indicators. The depth of credit information index measures rules and practices affecting the coverage, scope and accessibility of credit information available through a credit registry or a credit bureau. The strength of legal rights index measures the degree to which collateral and bankruptcy laws protect the rights of borrowers and lenders and thus facilitate lending. For each economy it is first determined whether a unitary secured transactions system exists. Then two case scenarios, case A and case B, are used to determine how a nonpossessory security interest is created, publicized and enforced according to the law. Special emphasis is given to how the collateral registry operates (if registration of security interests is possible). The case scenarios involve a secured borrower, company ABC, and a secured lender, BizBank.

In some economies the legal framework for secured transactions will allow only case A or case B (not both) to apply. Both cases examine the same set of legal provisions relating to the use of movable collateral.

Several assumptions about the secured borrower (ABC) and lender (BizBank) are used:

- ABC is a domestic limited liability company (or its legal equivalent).
- ABC has up to 50 employees.
- ABC has its headquarters and only base of operations in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Both ABC and BizBank are 100% domestically owned.

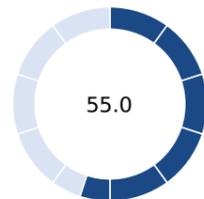

The case scenarios also involve assumptions. In case A, as collateral for the loan, ABC grants BizBank a nonpossessory security interest in one category of movable assets, for example, its machinery or its inventory. ABC wants to keep both possession and ownership of the collateral. In economies where the law does not allow nonpossessory security interests in movable property, ABC and BizBank use a fiduciary transfer-of-title arrangement (or a similar substitute for nonpossessory security interests).

In case B, ABC grants BizBank a business charge, enterprise charge, floating charge or any charge that gives BizBank a security interest over ABC's combined movable assets (or as much of ABC's movable assets as possible). ABC keeps ownership and possession of the assets.

Getting Credit - Guyana

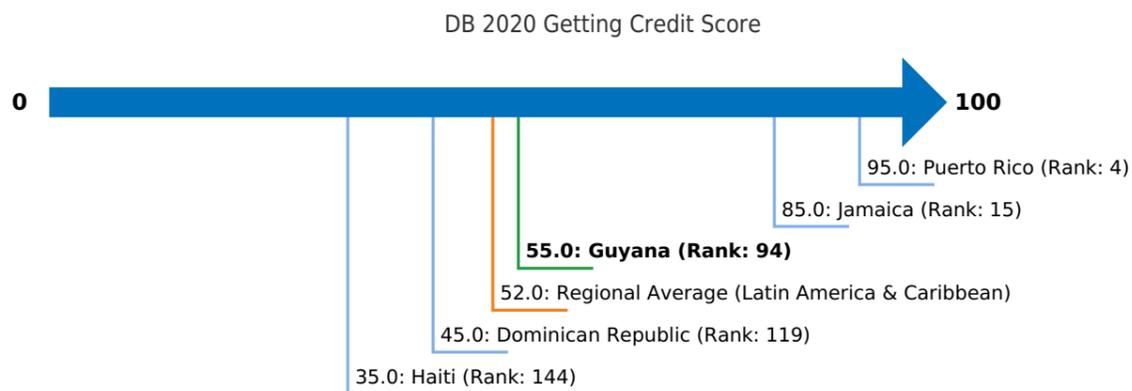

Indicator	Guyana	Latin America & Caribbean	OECD high income	Best Regulatory Performance
Strength of legal rights index (0-12)	3	5.3	6.1	12 (5 Economies)
Depth of credit information index (0-8)	8	5.1	6.8	8 (53 Economies)

Details - Legal Rights in Guyana

Strength of legal rights index (0-12)

3

Does an integrated or unified legal framework for secured transactions that extends to the creation, publicity and enforcement of functional equivalents to security interests in movable assets exist in the economy? No

Does the law allow businesses to grant a non possessory security right in a single category of movable assets, without requiring a specific description of collateral? No

Does the law allow businesses to grant a non possessory security right in substantially all of its assets, without requiring a specific description of collateral? Yes

May a security right extend to future or after-acquired assets, and does it extend automatically to the products, proceeds and replacements of the original assets? No

Is a general description of debts and obligations permitted in collateral agreements; can all types of debts and obligations be secured between parties; and can the collateral agreement include a maximum amount for which the assets are encumbered? Yes

Is a collateral registry in operation for both incorporated and non-incorporated entities, that is unified geographically and by asset type, with an electronic database indexed by debtor's name? No

Does a notice-based collateral registry exist in which all functional equivalents can be registered? No

Does a modern collateral registry exist in which registrations, amendments, cancellations and searches can be performed online by any interested third party? No

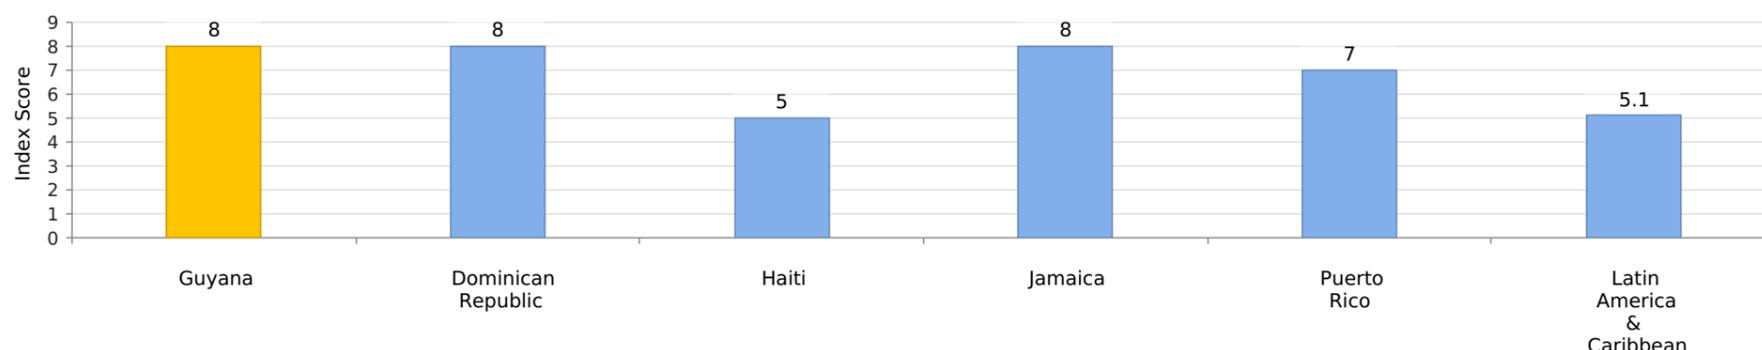

Are secured creditors paid first (i.e. before tax claims and employee claims) when a debtor defaults outside an insolvency procedure? No

Are secured creditors paid first (i.e. before tax claims and employee claims) when a business is liquidated? No

Are secured creditors subject to an automatic stay on enforcement when a debtor enters a court-supervised reorganization procedure? Does the law protect secured creditors' rights by providing clear grounds for relief from the stay and sets a time limit for it? No

Does the law allow parties to agree on out of court enforcement at the time a security interest is created? Does the law allow the secured creditor to sell the collateral through public auction or private tender, as well as, for the secured creditor to keep the asset in satisfaction of the debt? Yes

Details - Credit Information in Guyana

Depth of credit information index (0-8)	Credit bureau	Credit registry	Score
Are data on both firms and individuals distributed?	Yes	No	1
Are both positive and negative credit data distributed?	Yes	No	1
Are data from retailers or utility companies - in addition to data from banks and financial institutions - distributed?	Yes	No	1
Are at least 2 years of historical data distributed? (Credit bureaus and registries that distribute more than 10 years of negative data or erase data on defaults as soon as they are repaid obtain a score of 0 for this component.)	Yes	No	1
Are data on loan amounts below 1% of income per capita distributed?	Yes	No	1
By law, do borrowers have the right to access their data in the credit bureau or credit registry?	Yes	No	1
Can banks and financial institutions access borrowers' credit information online (for example, through an online platform, a system-to-system connection or both)?	Yes	No	1
Are bureau or registry credit scores offered as a value-added service to help banks and financial institutions assess the creditworthiness of borrowers?	Yes	No	1
Total Score ("yes" to either public bureau or private registry)			8

Note: An economy receives a score of 1 if there is a "yes" to either bureau or registry. If the credit bureau or registry is not operational or covers less than 5% of the adult population, the total score on the depth of credit information index is 0.

Coverage	Credit bureau	Credit registry
Number of individuals	156,712	0
Number of firms	1,977	0
Total	158,689	0
Percentage of adult population	30.9	0.0

Protecting Minority Investors

This topic measures the strength of minority shareholder protections against misuse of corporate assets by directors for their personal gain as well as shareholder rights, governance safeguards and corporate transparency requirements that reduce the risk of abuse. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure

- **Extent of disclosure index (0-10):** Disclosure, review, and approval requirements for related-party transactions
- **Extent of director liability index (0-10):** Ability of minority shareholders to sue and hold interested directors liable for prejudicial related-party transactions; Available legal remedies (damages, disgorgement of profits, disqualification from managerial position(s) for one year or more, rescission of the transaction)
- **Ease of shareholder suits index (0-10):** Access to internal corporate documents; Evidence obtainable during trial and allocation of legal expenses
- **Extent of conflict of interest regulation index (0-30):** Sum of the extent of disclosure, extent of director liability and ease of shareholder suits indices
- **Extent of shareholder rights index (0-6):** Shareholders' rights and role in major corporate decisions
- **Extent of ownership and control index (0-7):** Governance safeguards protecting shareholders from undue board control and entrenchment
- **Extent of corporate transparency index (0-7):** Corporate transparency on ownership stakes, compensation, audits and financial prospects
- **Extent of shareholder governance index (0-20):** Sum of the extent of shareholders rights, extent of ownership and control and extent of corporate transparency indices
- **Strength of minority investor protection index (0-50):** Sum of the extent of conflict of interest regulation and extent of shareholder governance indices

Case study assumptions

To make the data comparable across economies, a case study uses several assumptions about the business and the transaction.

The business (Buyer):

- Is a publicly traded corporation listed on the economy's most important stock exchange.
- Has a board of directors and a chief executive officer (CEO) who may legally act on behalf of Buyer where permitted, even if this is not specifically required by law.
- Has a supervisory board in economies with a two-tier board system on which Mr. James appointed 60% of the shareholder-elected members.
- Has not adopted bylaws or articles of association that go beyond the minimum requirements. Does not follow codes, principles, recommendations or guidelines that are not mandatory.
- Is a manufacturing company with its own distribution network.

The transaction involves the following details:

- Mr. James owns 60% of Buyer, sits on Buyer's board of directors and elected two directors to Buyer's five-member board.
- Mr. James also owns 90% of Seller, a company that operates a chain of retail hardware stores. Seller recently closed a large number of its stores.
- Mr. James proposes that Buyer purchase Seller's unused fleet of trucks to expand Buyer's distribution of its food products, a proposal to which Buyer agrees. The price is equal to 10% of Buyer's assets and is higher than the market value.
- The proposed transaction is part of the company's principal activity and is not outside the authority of the company.
- Buyer enters into the transaction. All required approvals are obtained, and all required disclosures made—that is, the transaction was not entered into fraudulently.
- The transaction causes damages to Buyer. Shareholders sue Mr. James and the executives and directors that approved the transaction.

	Answer	Score
Extent of conflict of interest regulation index (0-30)		
Extent of disclosure index (0-10)		5.0
Whose decision is sufficient to approve the Buyer-Seller transaction? (0-3)	Shareholders or board of directors including interested parties	1.0
Must an external body review the terms of the transaction before it takes place? (0-1)	No	0.0
Must Mr. James disclose his conflict of interest to the board of directors? (0-2)	Full disclosure of all material facts	2.0
Must Buyer disclose the transaction in periodic filings (e.g. annual reports)? (0-2)	Disclosure on the transaction and on the conflict of interest	2.0
Must Buyer immediately disclose the transaction to the public? (0-2)	No disclosure obligation	0.0
Extent of director liability index (0-10)		5.0
Can shareholders representing 10% of Buyer's share capital sue for the damage the transaction caused to Buyer? (0-1)	Yes	1.0
Can shareholders hold Mr. James liable for the damage the transaction caused to Buyer? (0-2)	Liable if negligent	1.0
Can shareholders hold the other directors liable for the damage the transaction caused to Buyer? (0-2)	Liable if negligent	1.0
Must Mr. James pay damages for the harm caused to Buyer upon a successful claim by shareholders? (0-1)	Yes	1.0
Must Mr. James repay profits made from the transaction upon a successful claim by shareholders? (0-1)	Yes	1.0
Is Mr. James disqualified upon a successful claim by shareholders? (0-1)	No	0.0
Can a court void the transaction upon a successful claim by shareholders? (0-2)	Only in case of fraud or bad faith	0.0
Ease of shareholder suits index (0-10)		8.0
Before suing, can shareholders representing 10% of Buyer's share capital inspect the transaction documents? (0-1)	Yes	1.0
Can the plaintiff obtain any documents from the defendant and witnesses at trial? (0-3)	Any relevant document	3.0
Can the plaintiff request categories of documents from the defendant without identifying specific ones? (0-1)	No	0.0
Can the plaintiff directly question the defendant and witnesses at trial? (0-2)	Yes	2.0
Is the level of proof required for civil suits lower than that of criminal cases? (0-1)	Yes	1.0
Can shareholder plaintiffs recover their legal expenses from the company? (0-2)	Yes if successful	1.0
Extent of shareholder governance index (0-20)		
Extent of shareholder rights index (0-6)		4.0
Does the sale of 51% of Buyer's assets require shareholder approval?	Yes	1.0
Can shareholders representing 10% of Buyer's share capital call for a meeting of shareholders?	Yes	1.0
Must Buyer obtain its shareholders' approval every time it issues new shares?	No	0.0
Do shareholders automatically receive preemption rights every time Buyer issues new shares?	No	0.0
Do shareholders elect and dismiss the external auditor?	Yes	1.0
Are changes to the rights of a class of shares only possible if the holders of the affected shares approve?	Yes	1.0
Extent of ownership and control index (0-7)		2.0
Is it forbidden to appoint the same individual as CEO and chairperson of the board of directors?	No	0.0

Must the board of directors include independent and nonexecutive board members?	No	0.0
Can shareholders remove members of the board of directors without cause before the end of their term?	Yes	1.0
Must the board of directors include a separate audit committee exclusively comprising board members?	No	0.0
Must a potential acquirer make a tender offer to all shareholders upon acquiring 50% of Buyer?	Yes	1.0
Must Buyer pay declared dividends within a maximum period set by law?	No	0.0
Is a subsidiary prohibited from acquiring shares issued by its parent company?	No	0.0
Extent of corporate transparency index (0-7)		4.0
Must Buyer disclose direct and indirect beneficial ownership stakes representing 5%?	No	0.0
Must Buyer disclose information about board members' primary employment and directorships in other companies?	No	0.0
Must Buyer disclose the compensation of individual managers?	Yes	1.0
Must a detailed notice of general meeting be sent 21 days before the meeting?	No	0.0
Can shareholders representing 5% of Buyer's share capital put items on the general meeting agenda?	Yes	1.0
Must Buyer's annual financial statements be audited by an external auditor?	Yes	1.0
Must Buyer disclose its audit reports to the public?	Yes	1.0

Paying Taxes

This topic records the taxes and mandatory contributions that a medium-size company must pay or withhold in a given year, as well as the administrative burden of paying taxes and contributions and complying with postfiling procedures (VAT refund and tax audit). The most recent round of data collection for the project was completed in May 2019 covering for the Paying Taxes indicator calendar year 2018 (January 1, 2018 – December 31, 2018). [See the methodology for more information.](#)

What the indicators measure

Tax payments for a manufacturing company in 2018 (number per year adjusted for electronic and joint filing and payment)

- Total number of taxes and contributions paid or withheld, including consumption taxes (value added tax, sales tax or goods and service tax)
- Method and frequency of filing and payment

Time required to comply with 3 major taxes (hours per year)

- Collecting information, computing tax payable
- Preparing separate tax accounting books, if required
- Completing tax return, filing with agencies
- Arranging payment or withholding

Total tax and contribution rate (% of commercial profits)

- Profit or corporate income tax
- Social contributions, labor taxes paid by employer
- Property and property transfer taxes
- Dividend, capital gains, financial transactions taxes
- Waste collection, vehicle, road and other taxes

Postfiling Index

- Time to comply with VAT refund (hours)
- Time to obtain VAT refund (weeks)
- Time to comply with a corporate income tax correction (hours)
- Time to complete a corporate income tax correction (weeks)

Case study assumptions

Using a case scenario, *Doing Business* records taxes and mandatory contributions a medium size company must pay in a year, and measures the administrative burden of paying taxes, contributions and dealing with postfiling processes. Information is also compiled on frequency of filing and payments, time taken to comply with tax laws, time taken to comply with the requirements of postfiling processes and time waiting.

To make data comparable across economies, several assumptions are used:

- TaxpayerCo is a medium-size business that started operations on January 1, 2017. It produces ceramic flowerpots and sells them at retail. All taxes and contributions recorded are paid in the second year of operation (calendar year 2018). Taxes and mandatory contributions are measured at all levels of government.

The VAT refund process:

- In June 2018, TaxpayerCo. makes a large capital purchase: the value of the machine is 65 times income per capita of the economy. Sales are equally spread per month (1,050 times income per capita divided by 12) and cost of goods sold are equally expensed per month (875 times income per capita divided by 12). The machinery seller is registered for VAT and excess input VAT incurred in June will be fully recovered after four consecutive months if the VAT rate is the same for inputs, sales and the machine and the tax reporting period is every month. Input VAT will exceed Output VAT in June 2018.

The corporate income tax audit process:

- An error in calculation of income tax liability (for example, use of incorrect tax depreciation rates, or incorrectly treating an expense as tax deductible) leads to an incorrect income tax return and a corporate income tax underpayment. TaxpayerCo. discovered the error and voluntarily notified the tax authority. The value of the underpaid income tax liability is 5% of the corporate income tax liability due. TaxpayerCo. submits corrected information after the deadline for submitting the annual tax return, but within the tax assessment period.

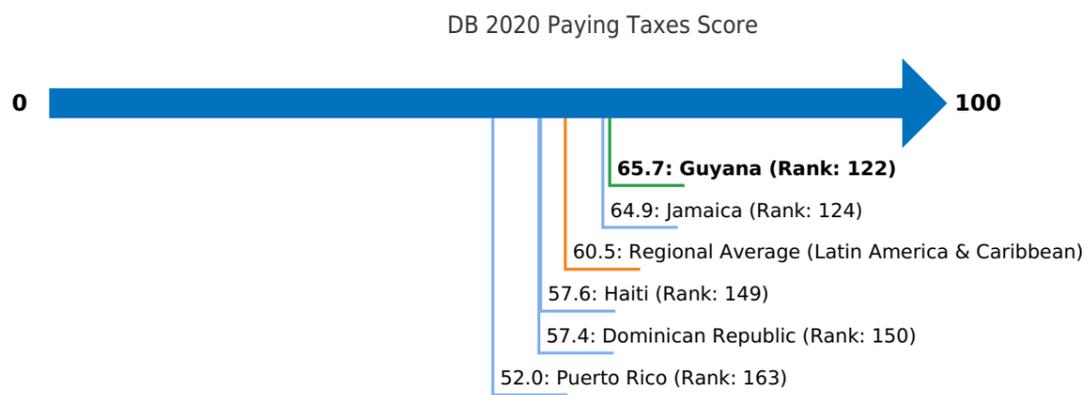

Paying Taxes - Guyana

Indicator	Guyana	Latin America & Caribbean	OECD high income	Best Regulatory Performance
Payments (number per year)	35	28.2	10.3	3 (2 Economies)
Time (hours per year)	256	317.1	158.8	49 (3 Economies)
Total tax and contribution rate (% of profit)	30.6	47.0	39.9	26.1 (33 Economies)

Figure - Paying Taxes in Guyana - Score

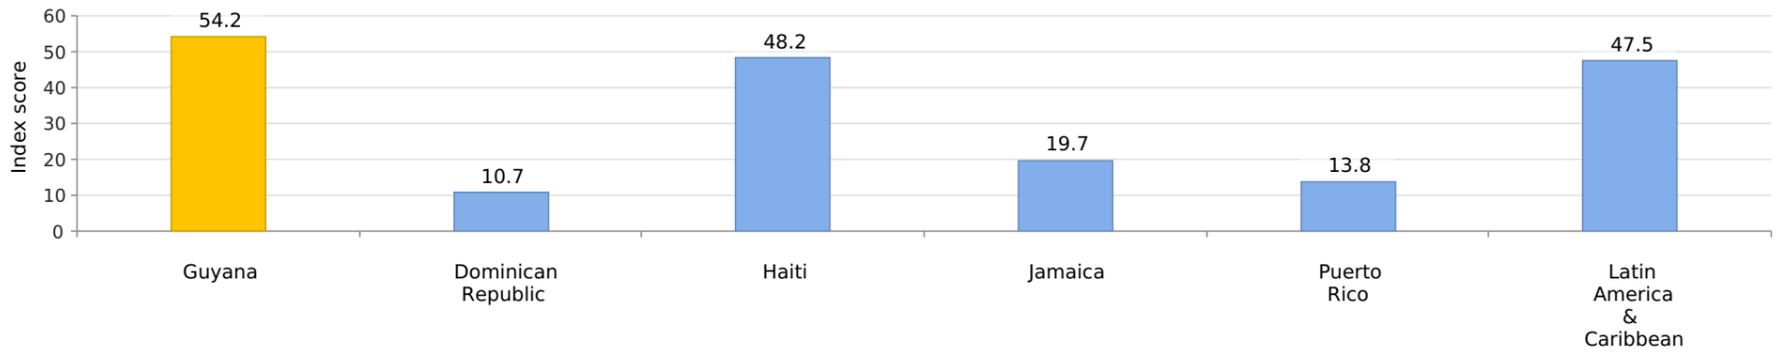

Figure - Paying Taxes in Guyana and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of paying taxes is determined by sorting their scores for paying taxes. These scores are the simple average of the scores for each of the component indicators, with a threshold and a nonlinear transformation applied to one of the component indicators, the total tax and contribution rate. The threshold is defined as the total tax and contribution rate at the 15th percentile of the overall distribution for all years included in the analysis up to and including Doing Business 2015, which is 26.1%. All economies with a total tax and contribution rate below this threshold receive the same score as the economy at the threshold.

VAT refunds		
Does VAT exist?	Yes	
Does a VAT refund process exist per the case study?	Yes	
Restrictions on VAT refund process	none	
Percentage of cases exposed to a VAT audit (%)	25% - 49%	
Is there a mandatory carry forward period?	Yes	
Time to comply with VAT refund (hours)	20.0	60.0
Time to obtain VAT refund (weeks)	34.0	40.8
Corporate income tax audits		
Does corporate income tax exist?	Yes	
Percentage of cases exposed to a corporate income tax audit (%)	50% - 74%	
Time to comply with a corporate income tax correction (hours)	30.5	46.8
Time to complete a corporate income tax correction (weeks)	9.8	69.4

Notes: Names of taxes have been standardized. For instance income tax, profit tax, tax on company's income are all named corporate income tax in this table.

The hours for VAT include all the VAT and sales taxes applicable.

The hours for Social Security include all the hours for labor taxes and mandatory contributions in general.

The postfiling index is the average of the scores on time to comply with VAT refund, time to obtain a VAT refund, time to comply with a corporate income tax correction and time to complete a corporate income tax correction.

N/A = Not applicable.

Trading across Borders

Doing Business records the time and cost associated with the logistical process of exporting and importing goods. *Doing Business* measures the time and cost (excluding tariffs) associated with three sets of procedures—documentary compliance, border compliance and domestic transport—within the overall process of exporting or importing a shipment of goods. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure

Documentary compliance

- Obtaining, preparing and submitting documents during transport, clearance, inspections and port or border handling in origin economy
- Obtaining, preparing and submitting documents required by destination economy and any transit economies
- Covers all documents required by law and in practice, including electronic submissions of information

Border compliance

- Customs clearance and inspections
- Inspections by other agencies (if applied to more than 20% of shipments)
- Handling and inspections that take place at the economy's port or border

Domestic transport

- Loading or unloading of the shipment at the warehouse or port/border
- Transport between warehouse and port/border
- Traffic delays and road police checks while shipment is en route

Case study assumptions

To make the data comparable across economies, a few assumptions are made about the traded goods and the transactions:

Time: Time is measured in hours, and 1 day is 24 hours (for example, 22 days are recorded as $22 \times 24 = 528$ hours). If customs clearance takes 7.5 hours, the data are recorded as is. Alternatively, suppose documents are submitted to a customs agency at 8:00a.m., are processed overnight and can be picked up at 8:00a.m. the next day. The time for customs clearance would be recorded as 24 hours because the actual procedure took 24 hours.

Cost: Insurance cost and informal payments for which no receipt is issued are excluded from the costs recorded. Costs are reported in U.S. dollars. Contributors are asked to convert local currency into U.S. dollars based on the exchange rate prevailing on the day they answer the questionnaire. Contributors are private sector experts in international trade logistics and are informed about exchange rates.

Assumptions of the case study:

- For all 190 economies covered by *Doing Business*, it is assumed a shipment is in a warehouse in the largest business city of the exporting economy and travels to a warehouse in the largest business city of the importing economy.
- It is assumed each economy imports 15 metric tons of containerized auto parts (HS 8708) from its natural import partner—the economy from which it imports the largest value (price times quantity) of auto parts. It is assumed each economy exports the product of its comparative advantage (defined by the largest export value) to its natural export partner—the economy that is the largest purchaser of this product. Shipment value is assumed to be \$50,000.
- The mode of transport is the one most widely used for the chosen export or import product and the trading partner, as is the seaport or land border crossing.
- All electronic information submissions requested by any government agency in connection with the shipment are considered to be documents obtained, prepared and submitted during the export or import process.
- A port or border is a place (seaport or land border crossing) where merchandise can enter or leave an economy.
- Relevant government agencies include customs, port authorities, road police, border guards, standardization agencies, ministries or departments of agriculture or industry, national security agencies and any other government authorities.

Enforcing Contracts

The enforcing contracts indicator measures the time and cost for resolving a commercial dispute through a local first-instance court, and the quality of judicial processes index, evaluating whether each economy has adopted a series of good practices that promote quality and efficiency in the court system. The most recent round of data collection was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure

Time required to enforce a contract through the courts (calendar days)

- Time to file and serve the case
- Time for trial and to obtain the judgment
- Time to enforce the judgment

Cost required to enforce a contract through the courts (% of claim value)

- Average attorney fees
- Court costs
- Enforcement costs

Quality of judicial processes index (0-18)

- Court structure and proceedings (-1-5)
- Case management (0-6)
- Court automation (0-4)
- Alternative dispute resolution (0-3)

Case study assumptions

The dispute in the case study involves the breach of a sales contract between two domestic businesses. The case study assumes that the court hears an expert on the quality of the goods in dispute. This distinguishes the case from simple debt enforcement.

To make the data on the time and comparable across economies, several assumptions about the case are used:

- The dispute concerns a lawful transaction between two businesses (Seller and Buyer), both located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- The Buyer orders custom-made furniture, then fails to pay alleging that the goods are not of adequate quality.
- The value of the dispute is 200% of the income per capita or the equivalent in local currency of USD 5,000, whichever is greater.
- The Seller sues the Buyer before the court with jurisdiction over commercial cases worth 200% of income per capita or \$5,000 whichever is greater.
- The Seller requests the pretrial attachment of the defendant's movable assets to secure the claim.
- The claim is disputed on the merits because of Buyer's allegation that the quality of the goods was not adequate.
- The judge decides in favor of the seller; there is no appeal.
- The Seller enforces the judgment through a public sale of the Buyer's movable assets.

	Answer	Score
Quality of judicial processes index (0-18)		7.5
Court structure and proceedings (-1-5)		4.0
1. Is there a court or division of a court dedicated solely to hearing commercial cases?	Yes	1.5
2. Small claims court		1.5
2.a. Is there a small claims court or a fast-track procedure for small claims?	Yes	
2.b. If yes, is self-representation allowed?	Yes	
3. Is pretrial attachment available?	Yes	1.0
4. Are new cases assigned randomly to judges?	No	0.0
5. Does a woman's testimony carry the same evidentiary weight in court as a man's?	Yes	0.0
Case management (0-6)		1.5
1. Time standards		0.5
1.a. Are there laws setting overall time standards for key court events in a civil case?	Yes	
1.b. If yes, are the time standards set for at least three court events?	Yes	
1.c. Are these time standards respected in more than 50% of cases?	No	
2. Adjournments		0.0
2.a. Does the law regulate the maximum number of adjournments that can be granted?	No	
2.b. Are adjournments limited to unforeseen and exceptional circumstances?	No	
2.c. If rules on adjournments exist, are they respected in more than 50% of cases?	n.a.	
3. Can two of the following four reports be generated about the competent court: (i) time to disposition report; (ii) clearance rate report; (iii) age of pending cases report; and (iv) single case progress report?	No	0.0
4. Is a pretrial conference among the case management techniques used before the competent court?	Yes	1.0
5. Are there any electronic case management tools in place within the competent court for use by judges?	No	0.0
6. Are there any electronic case management tools in place within the competent court for use by lawyers?	No	0.0
Court automation (0-4)		0.0
1. Can the initial complaint be filed electronically through a dedicated platform within the competent court?	No	0.0
2. Is it possible to carry out service of process electronically for claims filed before the competent court?	No	0.0
3. Can court fees be paid electronically within the competent court?	No	0.0
4. Publication of judgments		0.0
4.a. Are judgments rendered in commercial cases at all levels made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	No	
4.b. Are judgments rendered in commercial cases at the appellate and supreme court level made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	No	
Alternative dispute resolution (0-3)		2.0
1. Arbitration		1.0
1.a. Is domestic commercial arbitration governed by a consolidated law or consolidated chapter or section of the applicable code of civil procedure encompassing substantially all its aspects?	Yes	
1.b. Are there any commercial disputes—aside from those that deal with public order or public policy—that cannot be submitted to arbitration?	No	
1.c. Are valid arbitration clauses or agreements usually enforced by the courts?	No	

2. Mediation/Conciliation	1.0
2.a. Is voluntary mediation or conciliation available?	Yes
2.b. Are mediation, conciliation or both governed by a consolidated law or consolidated chapter or section of the applicable code of civil procedure encompassing substantially all their aspects (for example, definition, aim and scope of application, designation of mediator/conciliator, initiation of the process, principles governing the process, enforcement)?	Yes
2.c. Are there financial incentives for parties to attempt mediation or conciliation (i.e., if mediation or conciliation is successful, a refund of court filing fees, income tax credits or the like)?	No

Resolving Insolvency

Doing Business studies the time, cost and outcome of insolvency proceedings involving domestic legal entities. These variables are used to calculate the recovery rate, which is recorded as cents on the dollar recovered by secured creditors through reorganization, liquidation or debt enforcement (foreclosure or receivership) proceedings. To determine the present value of the amount recovered by creditors, *Doing Business* uses the lending rates from the International Monetary Fund, supplemented with data from central banks and the Economist Intelligence Unit. The most recent round of data collection was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure

Time required to recover debt (years)

- Measured in calendar years
- Appeals and requests for extension are included

Cost required to recover debt (% of debtor's estate)

- Measured as percentage of estate value
- Court fees
- Fees of insolvency administrators
- Lawyers' fees
- Assessors' and auctioneers' fees
- Other related fees

Outcome

- Whether business continues operating as a going concern or business assets are sold piecemeal

Recovery rate for creditors

- Measures the cents on the dollar recovered by secured creditors
- Outcome for the business (survival or not) determines the maximum value that can be recovered
- Official costs of the insolvency proceedings are deducted
- Depreciation of furniture is taken into account
- Present value of debt recovered

Strength of insolvency framework index (0- 16)

- Sum of the scores of four component indices:
- Commencement of proceedings index (0-3)
- Management of debtor's assets index (0-6)
- Reorganization proceedings index (0-3)
- Creditor participation index (0-4)

Case study assumptions

To make the data on the time, cost and outcome comparable across economies, several assumptions about the business and the case are used:

- A hotel located in the largest city (or cities) has 201 employees and 50 suppliers. The hotel experiences financial difficulties.
- The value of the hotel is 100% of the income per capita or the equivalent in local currency of USD 200,000, whichever is greater.
- The hotel has a loan from a domestic bank, secured by a mortgage over the hotel's real estate. The hotel cannot pay back the loan, but makes enough money to operate otherwise.

In addition, *Doing Business* evaluates the quality of legal framework applicable to judicial liquidation and reorganization proceedings and the extent to which best insolvency practices have been implemented in each economy covered.

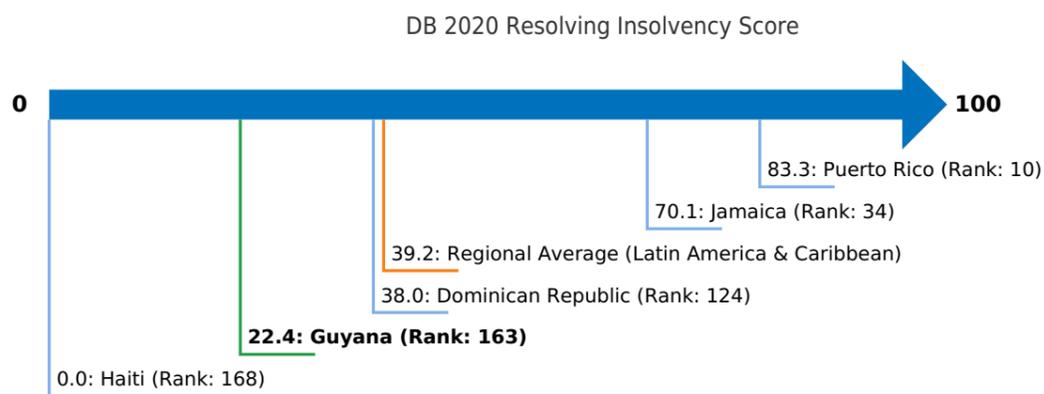

Resolving Insolvency - Guyana

Indicator	Guyana	Latin America & Caribbean	OECD high income	Best Regulatory Performance
Recovery rate (cents on the dollar)	18.4	31.2	70.2	92.9 (Norway)
Time (years)	3.0	2.9	1.7	0.4 (Ireland)
Cost (% of estate)	28.5	16.8	9.3	1.0 (Norway)
Outcome (0 as piecemeal sale and 1 as going concern)	0
Strength of insolvency framework index (0-16)	4.0	7.2	11.9	None in 2018/19

Figure - Resolving Insolvency in Guyana - Score

Figure - Resolving Insolvency in Guyana and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of resolving insolvency is determined by sorting their scores for resolving insolvency. These scores are the simple average of the scores for the recovery rate and the strength of insolvency framework index.

Figure - Resolving Insolvency in Guyana - Time and Cost

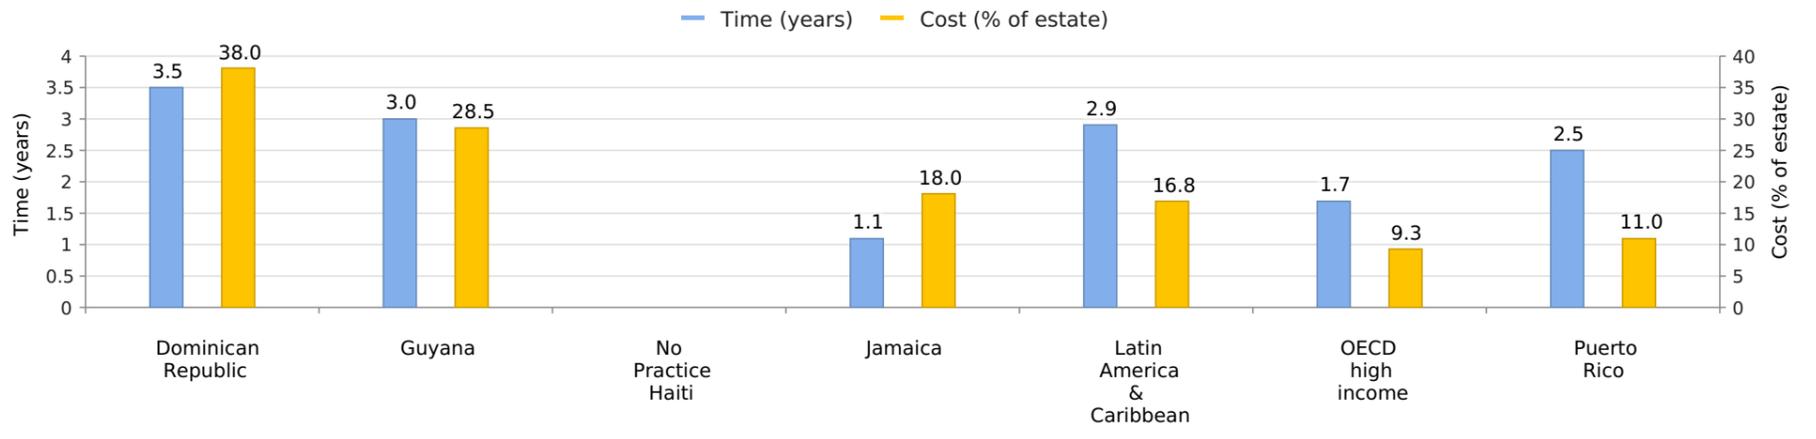

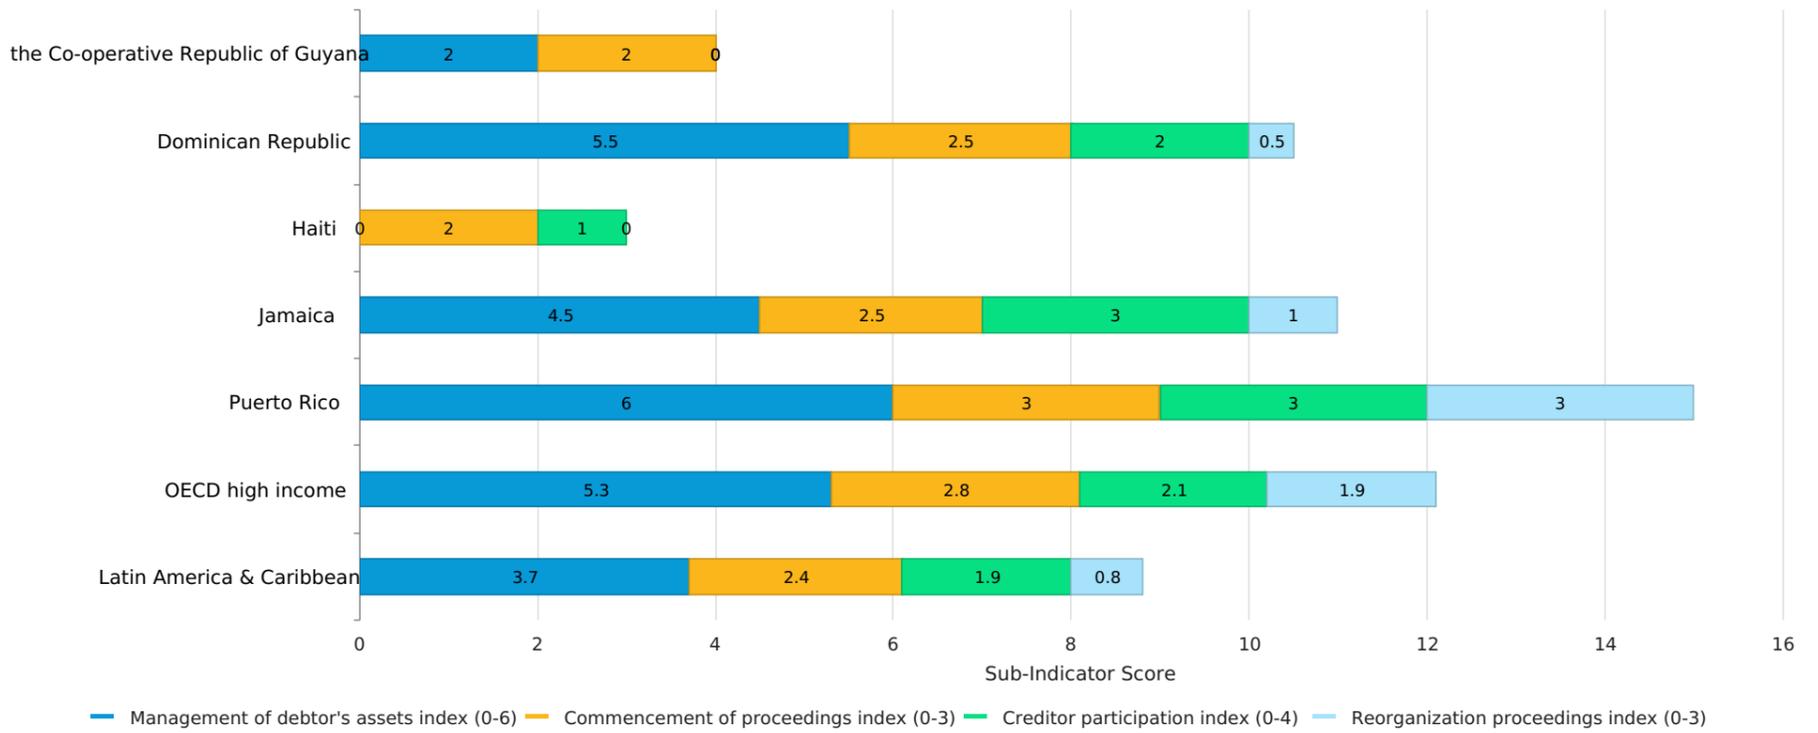

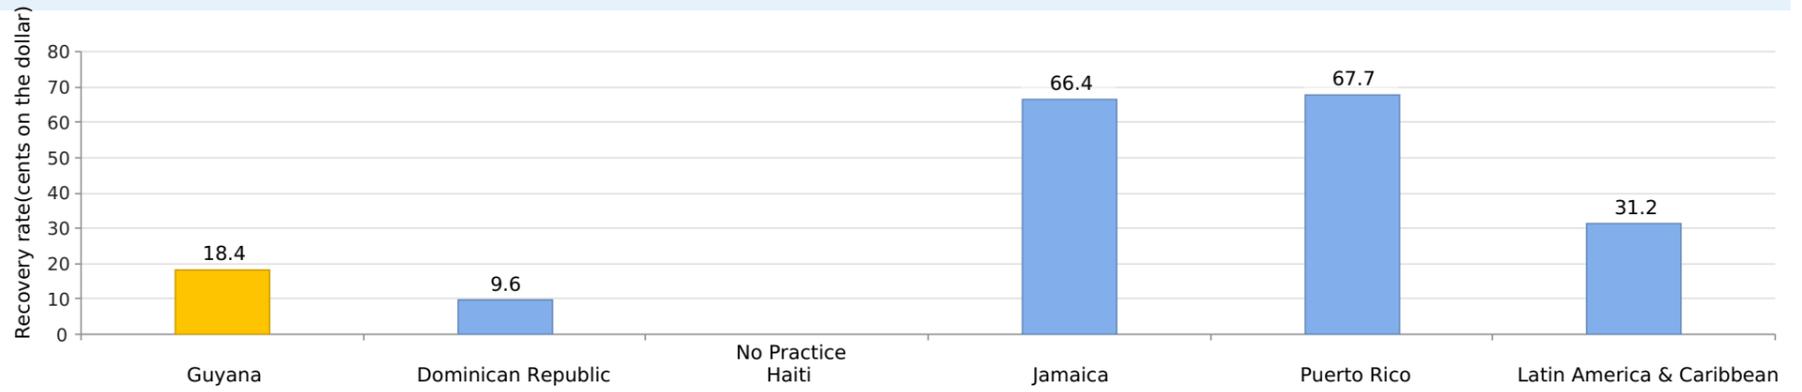

Figure - Resolving Insolvency in Guyana and comparator economies - Measure of Quality

Note: Even if the economy's legal framework includes provisions related to insolvency proceedings (liquidation or reorganization), the economy receives 0 points for the strength of insolvency framework index, if time, cost and outcome indicators are recorded as "no practice."

Details - Resolving Insolvency in Guyana

Indicator	Answer	Score
Proceeding	receivership	BizBank would initiate receivership to exercise the security interest over the hotel property through filing an application with the Commercial Court division of the High Court. Mirage would then file an Affidavit of Defense, followed by BizBank's filing if necessary. The case then goes to case management and trial until the decision is made by the Court. As for the enforcement of the judgment, Mirage's business will be sold piecemeal and the sale proceeds will be paid to BizBank.
Outcome	piecemeal sale	The hotel will stop operating and Mirage's assets will be sold piecemeal by the auctioneer appointed by the Court. This is because the bank would try to get its money as soon as possible.
Time (in years)	3.0	After the Civil Procedure Rules (CPR 2016) were adopted, it is generally observed that the court procedural steps relating to receivership have become more efficient in Guyana. However, because the new legislation came into force in January 2017, the Doing Business team still awaits more information about the cases of receivership, which were completed entirely according to the new rules. Such information is necessary to provide a new time estimate that would reflect accurately the new developments.
Cost (% of estate)	28.5	The costs associated with the case would amount to approximately 28.5% of the value of the debtor's estate. The main components of the costs incurred include attorney fees and insolvency representative fees.
Recovery rate (cents on the dollar)		18.4

Details - Resolving Insolvency in Guyana - Measure of Quality

	Answer	Score
Strength of insolvency framework index (0-16)		4.0
Commencement of proceedings index (0-3)		2.0
What procedures are available to a DEBTOR when commencing insolvency proceedings?	(b) Debtor may file for liquidation only	0.5
Does the insolvency framework allow a CREDITOR to file for insolvency of the debtor?	(b) Yes, but a creditor may file for liquidation only	0.5
What basis for commencement of the insolvency proceedings is allowed under the insolvency framework? (a) Debtor is generally unable to pay its debts as they mature (b) The value of debtor's liabilities exceeds the value of its assets	(a) Debtor is generally unable to pay its debts as they mature	1.0
Management of debtor's assets index (0-6)		2.0
Does the insolvency framework allow the continuation of contracts supplying essential goods and services to the debtor?	No	0.0
Does the insolvency framework allow the rejection by the debtor of overly burdensome contracts?	Yes	1.0
Does the insolvency framework allow avoidance of preferential transactions?	Yes	1.0
Does the insolvency framework allow avoidance of undervalued transactions?	No	0.0
Does the insolvency framework provide for the possibility of the debtor obtaining credit after commencement of insolvency proceedings?	No	0.0
Does the insolvency framework assign priority to post-commencement credit?	(c) No priority is assigned to post-commencement creditors	0.0
Reorganization proceedings index (0-3)		0.0
Which creditors vote on the proposed reorganization plan?	N/A	0.0
Does the insolvency framework require that dissenting creditors in reorganization receive at least as much as what they would obtain in a liquidation?	No	0.0
Are the creditors divided into classes for the purposes of voting on the reorganization plan, does each class vote separately and are creditors in the same class treated equally?	No	0.0
Creditor participation index (0-4)		0.0
Does the insolvency framework require approval by the creditors for selection or appointment of the insolvency representative?	No	0.0
Does the insolvency framework require approval by the creditors for sale of substantial assets of the debtor?	No	0.0
Does the insolvency framework provide that a creditor has the right to request information from the insolvency representative?	No	0.0
Does the insolvency framework provide that a creditor has the right to object to decisions accepting or rejecting creditors' claims?	No	0.0

Note: Even if the economy's legal framework includes provisions related to insolvency proceedings (liquidation or reorganization), the economy receives 0 points for the strength of insolvency framework index, if time, cost and outcome indicators are recorded as "no practice."

Employing Workers

Doing Business presents detailed data for the employing workers indicators on the *Doing Business* website (<http://www.doingbusiness.org>). The study does not present rankings of economies on these indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business.

The most recent round of data collection was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure

Hiring

(i) whether fixed-term contracts are prohibited for permanent tasks; (ii) maximum cumulative duration of fixed-term contracts; (iii) length of the maximum probationary period; (iv) minimum wage; (v) ratio of minimum wage to the average value added per worker.

Working hours

(i) maximum number of working days allowed per week; (ii) premiums for work: at night, on a weekly rest day and overtime; (iii) whether there are restrictions on work at night, work on a weekly rest day and for overtime work; (iv) length of paid annual leave.

Redundancy rules

(i) whether redundancy can be basis for terminating workers; (ii) whether employer needs to notify and/or get approval from third party to terminate 1 redundant worker and a group of 9 redundant workers; (iii) whether the law requires employer to reassign or retrain a worker before making worker redundant; (iv) whether priority rules apply for redundancies and reemployment.

Redundancy cost

(i) notice period for redundancy dismissal; (ii) severance payments, and (iii) penalties due when terminating a redundant worker. Data on the availability of unemployment protection for a worker with one year of employment is also collected.

Case study assumptions

To make the data comparable across economies, several assumptions about the worker and the business are used.

The worker:

- Is a cashier in a supermarket or grocery store, age 19, with one year of work experience.
- Is a full-time employee.
- Is not a member of the labor union, unless membership is mandatory.

The business:

- Is a limited liability company (or the equivalent in the economy).
- Operates a supermarket or grocery store in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Has 60 employees.
- Is subject to collective bargaining agreements if such agreements cover more than 50% of the food retail sector and they apply even to firms that are not party to them.
- Abides by every law and regulation but does not grant workers more benefits than those mandated by law, regulation or (if applicable) collective bargaining agreements.

Employing Workers - Guyana

Details - Employing Workers in Guyana

	Answer
Hiring	
Fixed-term contracts prohibited for permanent tasks?	No
Maximum length of a single fixed-term contract (months)	No limit
Maximum length of fixed-term contracts, including renewals (months)	No limit
Minimum wage applicable to the worker assumed in the case study (US\$/month)	218.1
Ratio of minimum wage to value added per worker	0.4
Maximum length of probationary period (months)	n.a.
Working hours	
Standard workday	7.8
Maximum number of working days per week	5.5
Premium for night work (% of hourly pay)	0.0
Premium for work on weekly rest day (% of hourly pay)	0.0
Premium for overtime work (% of hourly pay)	50.0
Restrictions on night work?	Yes
Restrictions on weekly holiday?	Yes
Restrictions on overtime work?	Yes
Paid annual leave for a worker with 1 year of tenure (working days)	12.0
Paid annual leave for a worker with 5 years of tenure (working days)	12.0
Paid annual leave for a worker with 10 years of tenure (working days)	12.0
Paid annual leave (average for workers with 1, 5 and 10 years of tenure, in working days)	12.0
Redundancy rules	
Dismissal due to redundancy allowed by law?	Yes
Third-party notification if one worker is dismissed?	Yes
Third-party approval if one worker is dismissed?	No
Third-party notification if nine workers are dismissed?	Yes
Third-party approval if nine workers are dismissed?	No
Retraining or reassignment obligation before redundancy?	No
Priority rules for redundancies?	No
Priority rules for reemployment?	No
Redundancy cost	
Notice period for redundancy dismissal for a worker with 1 year of tenure (weeks of salary)	4.3
Notice period for redundancy dismissal for a worker with 5 years of tenure (weeks of salary)	4.3
Notice period for redundancy dismissal for a worker with 10 years of tenure (weeks of salary)	4.3
Notice period for redundancy dismissal (average for workers with 1, 5 and 10 years of tenure, in weeks of salary)	4.3
Severance pay for redundancy dismissal for a worker with 1 year of tenure (weeks of salary)	1.0
Severance pay for redundancy dismissal for a worker with 5 years of tenure (weeks of salary)	5.0

Severance pay for redundancy dismissal for a worker with 10 years of tenure (weeks of salary)	15.0
Severance pay for redundancy dismissal (average for workers with 1, 5 and 10 years of tenure, in weeks of salary)	7.0
Unemployment protection after one year of employment?	No

Business Reforms in Guyana

From May 2, 2018 to May 1, 2019, 115 economies implemented 294 business regulatory reforms across the 10 areas measured by Doing Business. Reforms inspired by *Doing Business* have been implemented by economies in all regions. The following are reforms implemented since *Doing Business* 2008.

✓ = *Doing Business* reform making it easier to do business. ✗ = Change making it more difficult to do business.

DB2020

✗ **Trading across Borders:** Guyana made trading across borders more expensive by increasing the fees for mandatory inspection through scanners for exports, thereby increasing the cost of export border compliance.

DB2018

✓ **Registering Property:** Guyana made it easier to transfer property by decreasing the time to transfer a property by allocating higher resources in infrastructure and personnel

✓ **Enforcing Contracts:** Guyana made enforcing contracts easier by adopting a new code of civil procedure regulating time standards for key court events.

DB2017

✓ **Registering Property:** Guyana made registering property easier by increasing the transparency of the Lands & Survey Commission.

✓ **Getting Credit:** Guyana improved access to credit information by expanding the coverage of the credit bureau.

DB2016

✓ **Getting Credit:** Guyana improved access to credit information by establishing a new credit bureau.

DB2014

✓ **Paying Taxes:** Guyana made paying taxes easier for companies by reducing the corporate income tax rate.

DB2012

✓ **Starting a Business:** Guyana eased the process of starting a business by reducing the time needed for registering a new company and for obtaining a tax identification number.

✗ **Getting Electricity:** Guyana made getting electricity more expensive by tripling the security deposit required for a new connection.

✗ **Registering Property:** In Guyana transferring property became slower because of a lack of personnel at the deed registry.

DB2011

✓ **Starting a Business:** Guyana eased business start-up by digitizing company records, which speeded up the process of company name search and reservation.

✓ **Getting Credit:** Guyana enhanced access to credit by establishing a regulatory framework that allows the licensing of private credit bureaus and gives borrowers the right to inspect their data.

✓ **Trading across Borders:** Guyana improved its risk profiling system for customs inspection, reducing physical inspections of shipments and the time to trade.

DB2010

✓ **Starting a Business:** Guyana made starting a business easier by applying a flat registration fee for all companies, regardless of capital amount; eliminating the duty payable upon incorporation; and streamlining tax registration through the introduction of a unique tax identification number (TIN) system.

✓ **Trading across Borders:** Guyana reduced the time for exporting and importing by implementing a system allowing customs brokers to submit documents electronically.

undefined:

Doing Business 2020 is the 17th in a series of annual studies investigating the regulations that enhance business activity and those that constrain it. It provides quantitative indicators covering 12 areas of the business environment in 190 economies. The goal of the *Doing Business* series is to provide objective data for use by governments in designing sound business regulatory policies and to encourage research on the important dimensions of the regulatory environment for firms.
