Staff Directive on Addressing Risks and Impacts on Disadvantaged Individuals or Groups

Access to IDs

- 1 billion persons globally estimated to not have government recognized ID.
- Persons with disabilities are more likely to experience greater barriers obtaining and using IDs .
- IDs often crucial to access services and benefits.
- Intersectionality with gender, race, ethnicity, language, SOGI, or other status can result in multiple forms of exclusion and discrimination .
- Essential to ensure that new investments in government ID systems are disability-inclusive.

Learning from persons with disabilities

Consultations in West Africa and at the Conference of States Parties
