

SPF UMBRELLA TRUST FUND GRANTS

(as of December 31, 2022)

Region	Country and Grant Title	Development Objective	Start Date	Grant Amount
Eastern and Southern Africa	Ethiopia: Enabling resilient recovery and reconstruction <i>TF0B8304</i>	Support the Government of Ethiopia to assess the impacts of the conflict across northern Ethiopia, laying the foundations for a longer-term recovery and reconstruction strategy. The grant will develop a structured process to facilitate dialogue, partnership, and consensus-building activities to conduct a multi-dimensional assessment of conflict impacts and recovery and reconstruction needs, and support prioritization and sequencing of interventions in a resilient recovery and reconstruction strategy.	March 2022	\$400,000
	Ethiopia: Strengthening implementation of women empowerment and GBV prevention <i>TF0B9145</i>	Enhance the capacity of implementing agencies to design, implement and monitor high-quality gender communication activities to support interventions on closing gender gaps and eliminating gender-based violence in selected operations.	July 2022	\$275,000
	Zimbabwe: Shock responsive social protection action plan <i>TF0B9254</i>	Develop an Action Plan and Standard Operating Procedures for shock-responsive social protection in Zimbabwe. These will be developed under the leadership of the Ministry of Public Service, Labour, and Social Welfare and in partnership with development and humanitarian partners. They will form the basis for a shock-responsive social protection system to respond to crises and meet the needs of vulnerable people.	August 2022	\$300,000
Central and Western Africa	Guinea-Bissau: Supporting an FCV-sensitive approach in Guinea-Bissau <i>TF0B9962</i>	Enhance the FCV sensitivity of World Bank engagement in Guinea-Bissau, with a more resilience-focused approach. The grant will support the Country Management Unit and task teams to adapt their approaches to be more effective in a highly fragile environment through a better understanding of resilience, and to incorporate appropriate actions aimed at mitigating fragility and supporting resilience.	November 2022	\$265,000
East Asia and Pacific	Myanmar: Supporting resilience in Myanmar <i>TF0C0160</i>	Test innovative approaches to coordinating and monitoring interventions between humanitarian and development actors and to consolidate and disseminate lessons learned. The grant will enhance understanding of the context and effectiveness of the Myanmar Community Resilience Project activities, draw lessons from the engagement in Myanmar, and disseminate knowledge for possible scale-up in-country and for application in other FCV contexts.	December 2022	\$400,000

Region	Country and Grant Title	Development Objective	Start Date	Grant Amount
Europe and Central Asia	<p>Central Asia: Addressing and enhancing resilience to FCV</p> <p><i>TF0B8749</i></p>	Support the Central Asia region in addressing transboundary drivers and risks of FCV and strengthen transboundary resilience in fragile border areas. The grant supports just-in-time analysis to inform World Bank regional operations that support resilience to transboundary FCV drivers and risks; regional policy dialogue and stakeholder engagement; and fragility risk monitoring.	June 2022	\$250,000
	<p>Azerbaijan: Support for recovery and peacebuilding</p> <p><i>TF0B8777</i></p>	Build government capacity to implement recovery and peacebuilding activities through improved knowledge of current circumstances and the identification of effective approaches for response. The grant supports technical assistance with priority areas for recovery and reconstruction of conflict-affected territories, such as urban planning, cultural heritage and tourism, and management information systems. The grant also supports a follow-up survey of internally displaced people to assess changes in livelihoods.	June 2022	\$400,000
	<p>Azerbaijan: Improved livelihoods for internally displaced persons</p> <p><i>TF0B9224;</i> <i>RETF grant pending</i></p>	Enhance civic engagement, technical skills and opportunities for income generation for vulnerable internally displaced populations. The grant will provide training to internally displaced people to learn a trade in the form of either classroom-based vocational training or traditional apprenticeship programs, and provide job placement or business development support for those successfully completing the vocational training.	August 2022	\$400,000
	<p>Romania: Supporting Romania with Ukrainian forcibly displaced crisis</p> <p><i>TF0B9966</i></p>	Strengthen registration and support services for Ukrainian forcibly displaced populations through identifying gaps and opportunities to inform evidence-based policies and supporting services. The grant supports data collection to identify user-centric solutions to enhance service delivery; help the authorities to document bottlenecks in the delivery of selected support services for forcibly displaced people; and engage authorities and service providers in pilots to co-create solutions.	December 2022	\$290,000

Region	Country and Grant Title	Development Objective	Start Date	Grant Amount
Latin America and Caribbean	Central America: SAFE migrations <i>TF0B8645</i>	Carry out a Survivor-centered Accessibility Framework Evaluation (SAFE) along migratory routes in Central America. The grant supports a framework assessment of physical, legal, institutional, and social accessibility to gender-based violence services among survivor women migrants.	June 2022	\$400,000
	Dominican Republic: Multisectoral response to migratory flows <i>TF0B9982;</i> <i>RETF grant pending</i>	Improve the institutional, statistical, planning, and coordination capacities to inform policy dialogue towards a multisectoral and inclusive response to migratory flows. The grant activities will advance an unprecedented coordinated and multisectoral migratory response, to advance an inclusive and peacebuilding agenda under an integrated strategic vision for the country.	November 2022	\$400,000
	Haiti: Promoting GBV services for women and girls <i>TF0B9434</i>	Increase access to adequate and comprehensive services in targeted areas to gender-based violence (GBV) survivors and/or women and girls at risk. The grant activities focus on improving the quality and increasing the reach of services for GBV survivors, and on key knowledge, learning and communication activities to complement the service delivery and promote sustainability and scaling.	August 2022	\$300,000
Middle East and North Africa	Lebanon: Support reforms of the wheat and bread subsidy system <i>TF0B9266</i>	Develop an economically and fiscally sustainable, as well as a socially acceptable, reform pathway to transition away from the current wheat subsidy system. The grant activities aim to help avoid further escalation of the dire food insecurity situation and potential social unrest.	August 2022	\$400,000
	Libya: Recovery and Peacebuilding Assessment <i>TF0B8234</i>	Provide technical support to the government to establish a national strategy for recovery and peacebuilding as a key outcome of the RPBA process. The grant supports the Government of National Unity through data collection and management, capacity building, and the preparation of thematic policy papers, which will feed into the development of a national strategy.	March 2022	\$400,000

Region	Country and Grant Title	Development Objective	Start Date	Grant Amount
Global	Gender and forced displacement in cities <i>TF0B8688</i>	Develop an operationally relevant framework for gender and forced displacement in cities. The grant supports an understanding of how urban forced displacement impacts women and men differently; identifies policies, actions, and measurable indicators that respond to those gender gaps; and develops guidance materials and tools that can be scaled.	May 2022	\$210,000
	Addressing gender inequalities in FCV by measuring the legal environment <i>TF0B8823</i>	Generate knowledge to address a clear set of gaps, including the lack of cross-country evidence on the role that implementation of laws protecting women's rights plays in ensuring their economic empowerment, and identify de facto hurdles to the full economic participation of women in fragile and conflict-affected situations and economies with pockets of fragility.	June 2022	\$350,000
	Updated integrated framework for jobs in FCV situations <i>TF0B8925</i>	Inform the WBG's and partners' support to jobs in situations affected by FCV. The grant supports targeted analysis of frontier issues relating to jobs in FCV - the impact of conflict on markets and aggregate demand and the scope for second-best reforms of macro-fiscal policy - and translates insights from these assessments and existing jobs work into policy messages to update the Integrated Framework for Jobs in Fragile and Conflict Situations.	October 2022	\$70,000
	Operationalization of the gender dimensions of forced displacement <i>TF0B9181</i>	Address the spillover effects of forced displacement in five countries by providing guidance on closing gender gaps and preventing and responding to gender-based violence in forcibly displaced and host communities.	July 2022	\$331,125
	Analytics for justice and the rule of law in FCV <i>TF0B9182</i>	Provide outcome-based measures and analysis on Justice and Rule of Law to facilitate the WBG's policy dialogue and post-conflict recovery efforts in FCV countries. The grant will highlight the role of justice as a binding constraint for transition, post-conflict recovery and economic development; provide cross-country data for evidence-based policy dialogue and country-level engagement in support of clients' development goals and the WBG FCV Strategy; and create entry points for justice and public sector reform.	July 2022	\$400,000
	Supporting crisis preparedness in FCV <i>TF0B9823</i>	Support client dialogue on crisis preparedness by identifying gaps and opportunities to strengthen the capacity of IDA, and IDA FCS countries in particular, to prepare for and manage crises in an effective and timely manner. The grant supports diagnostics, analytics, and knowledge to inform World Bank operations and programming in countries vulnerable to compound risks, including FCV risks.	October 2022	\$225,000
	Scaling adaptation finance in FCV <i>TF0B9986</i>	Address the climate change adaptation funding gap by increasing the capacity of funders and recipients to scale up commitments and distribution of adaptation finance in FCV settings. The grant will generate new ideas and consolidate knowledge on scaling finance in FCV; promote novel partnerships; and incubate innovative ideas to scale adaptation financing in FCV.	December 2022	\$350,000
