

LEARNING FROM THE EVIDENCE ON FORCED DISPLACEMENT

Are you developing, implementing, or advising on policy and operations for forcibly displaced and host communities? Join us for a training program that presents the latest socioeconomic evidence related to forced displacement and shows how it can inform operations, programming, and policies.

The training is based on research funded by the UK Government-UNHCR-World Bank Building the Evidence on Forced Displacement (BEoFD) research program and organized by BEoFD in collaboration with the World Bank-UNHCR Joint Data Center on Forced Displacement (JDC).

Eight thematic modules will be delivered by experts from UNHCR, World Bank, and research organizations such as the Overseas Development Institute and American Institutes for Research.

The 90-minute training takes place every Wednesday for 8 weeks, from September 27 to November 15, 2023. Places are limited - register now at bit.ly/3LoxEgk. For further information, visit <https://bit.ly/48cGGH3> or contact Dini Djalal at ddjalal@worldbank.org

Paola Elice

Impact Evaluation Specialist, World Bank

HOSTS

Domenico Tabasso

Senior Economist, JDC
