

Voice and Accountability

Voice and accountability captures perceptions of the extent to which a country's citizens are able to participate in selecting their government, as well as freedom of expression, freedom of association, and a free media. This table lists the individual variables from each data source used to construct this measure in the Worldwide Governance Indicators. Please note that the table refers to the questions in the most recently-used edition of each source in the WGI. Questions in some sources have changed over time and some sources have been discontinued from the WGI. For more details, please refer to the data files for each source available at www.govindicators.org.
